Quote #1419

To: City of Joliet
Attn: Mr. Jeff D'Aleo
Re: Fire Station 1 Access Control Additions

Dear Mr. D'Aleo,

Thank you for the opportunity to be of service.

Videotec is proud to be a fully licensed, insured, IBEW electronic security systems integrator. We have a strong history of excellent performance on projects similar in size and scope to the one described below.

At Videotec our core competency is integrated electronic security, making us more qualified for a project of this nature than a company who treats networked electronics as a sideline. I am sure you realize the value of a highly competent contractor performing their specialty.

Below you will find the scope of work, project pricing and terms for the installation. We also offer a full suite of leasing options as well as system maintenance plans. If you have any questions or concerns, please call me at 219-922-4500.

SCOPE OF WORK

Videotec will provide and install access control on 9 locations at Fire Station 1. Videotec will install a new Altronix Trove access control enclosure with integrated power supplies, furnish and install all electronic locking hardware, and install all necessary conduit and Wiremold raceways. The new access control system will be enrolled into the existing City of Joliet Genetec Platform. Please see below for locations

1. Admin Office Exterior – HES 1006 electric strike, HID card reader, Bosch REX, and recessed door contact.
2. Admin Office Interior – HES 5300 Electric strike, HID card reader, Bosch REX, and recessed door contact.
3. Supply Room – HES 5000 electric strike, HID card reader, Bosch REX, and recessed door contact. Videotec will install 24" door cord.
4. Kitchen Door Exterior – HES 1006 electric strike, HID mullion card reader, Bosch REX, and recessed door contact. City of Joliet to change out lever set.
5. Training Room Exterior – HES 1006 electric strike, HID card reader, Bosch REX, and recessed door contact. (will require surface mount Wiremold)

6. MDF room – HES 5300 Electric strike, HID card reader, Bosch REX, and recessed door contact.
7. Battalion Chief Overhead Door – HID card reader
8. Bay 1 Overhead Door – HID card Reader
9. Bay 2 Overhead Door – HID card reader.

Please see below for Bill of Materials:

The price for this scope of work is \$34,161.00.

Due to recent supply chain issues, 50% is due with the signed proposal returned and initialed before any equipment will be ordered or work will be scheduled.

The above-listed price is for acceptance within 15 days as supply chain and price increases monthly are in effect.

This proposal excludes all permits and license costs.

This quote excludes piping, back boxes and raceways.

All work to be performed during normal business hours Monday – Friday 7:30am – 4:30pm.

Customer must provide the necessary 110-Volt power as required by Videotec.

Warranty coverage for this quotation will be 90 days on labor and 1 year on parts.

We thank you for the opportunity of quoting the foregoing prices and we are looking forward to being of continued excellent service to you.

Very truly yours,
VIDEOTEC CORPORATION

Bobby Lee
