

STAFF REPORT

DATE: June 10, 2025
TO: Zoning Board of Appeals
FROM: Helen Miller, Planner
RE: Petition Number: 2025-18
 Applicant: Eduardo Mimiaga
 Status of Applicant: Owner
 Location: 407 S. Des Plaines Street
 Request: Variation to allow a second story addition

Purpose

The applicant is requesting the following variation to allow a second story addition on their existing residence at 407 S. Des Plaines Street:

- Variation to reduce the required side yard setback from 8 feet to 6 feet

The Zoning Board of Appeals makes the final decision on this variation request.

Site Specific Information

The subject site is 7,500 square feet (50 feet by 150 feet) and contains a one-and-a-half-story residence built around 1900. The house has around 1,400 square feet of living area on the first floor and 330 square feet in the upper half-story. The main floor measures approximately 21 feet by 73 feet and contains three bedrooms, living and dining areas, a kitchen, and two bathrooms. The proposed addition will have around 1,045 square feet of living area and contain two bedrooms and a bathroom. The property is zoned R-2 (single-family residential).

Surrounding Zoning, Land Use and Character

The property is located in the Southside neighborhood and is surrounded by residences with R-2 (single-family residential) and R-3 (one- and two-family residential) zoning on the north, west, and south sides. To the east is the former Eliza Kelly School property, which is zoned R-2 (single-family residential).

Applicable Regulations

- Section 47-6.4 R-2 District Yard and Lot Requirements
- Section 47-19.8 Findings of Facts Supporting a Variation (refer to attachment)

Discussion

The approval of the requested variation would allow the owner to construct an approximately 21-foot by 54-foot second-story addition on their one-and-a-half-story home. The addition would contain two bedrooms and a full bathroom. The front of the addition would be set back around 19 feet from the front wall of the main house and would meet the required front yard setback of 30 feet. The house has an existing side yard setback of 6 feet, which meets the requirement for a one-and-a-half-story structure but is less than the required side yard of 8 feet for two-story structures. Therefore, the petitioner needs a variation to build a full second story with the existing side yard setback.

The attached plans show the existing and proposed floor plans and the proposed elevations of the house. The addition will have a gable roof visible behind the existing front façade, which will remain unchanged. The new addition will have siding to match the existing house.

Staff finds that the request meets the following criteria for variations: the house has an existing side yard setback that does not meet the requirement for a full second story. It would be architecturally insensitive to build a second-story addition that is slightly offset from the first floor. Additionally, approval of the requested variation will not alter the essential character of the area, as there are other homes with second stories in the neighborhood.

VARIATION/APPEAL REQUESTED:

RESPONSE TO VARIATION CRITERIA

The Zoning Board of Appeals is authorized to grant or recommend relief only when it has received adequate evidence to establish a practical difficulty or hardship. The evidence must support each of the following three conditions:

- (a) The property in question cannot yield a reasonable return by use permitted and subject to the conditions allowed by the regulations in the particular district or zone.
- (b) The plight of the owner is due to unique circumstances.
- (c) The variation, if granted, will not alter the essential character of the locality.

Please describe how this request meets the criteria by responding to the following questions in your own words.

1. *How do the applicable zoning regulations prevent the property in question from yielding a reasonable return?* Applicable zoning code prevent the construction of an addition of typical size and shape.

2. What unique circumstances exist which mandate a variance? Applicable zoning code prevents the construction of an addition of typical size and shape and context with neighbors.

3. What impact would the granting of this variance have upon the essential character of the general area? Please include both positive and negative impacts.

No negative impact will be created with the approval of this variance. Approval of the variance will help the property maintain continuity and context throughout the street.

ZONING BOARD OF APPEALS
CRITERIA FOR VARIATIONS

Section 47-19.8 of the Zoning Ordinance states:

A variation shall not be granted in any case unless the Board shall find and clearly state in its record of the case that:

	Does the evidence presented sustain this criteria?	Comments
(1) Reasons sustaining the contention that strict enforcement of the Ordinance would involve practical difficulties or impose exceptional hardship were found as follows: (a) _____ (b) _____ (c) _____ (list of reasons)		
(2) Adequate evidence was submitted to establish practical difficulties or particular hardship so that, in the judgment of the Board, a variation is permitted because the evidence sustained the existence of each of the three following conditions: (a) The property in question cannot yield a reasonable return if permitted to be used only under the conditions allowed by the regulations in the particular district or zone. (b) The plight of the owner is due to unique circumstances. (c) The variation, if granted, will not alter the essential character of the locality.		
(3) A public hearing was held on such variation of which at least 15 days and not more than 30 days notice was published in the _____ (name of newspaper) on _____ (date).
