Memo

File #: 650-25 Agenda Date:12/16/2025

TO: Mayor and City Council

FROM: Chris Sternal, Director of IT

SUBJECT:

Request to Approve Funding for Public Safety PC Replacement in an Amount Not to Exceed \$250,000.00

BACKGROUND:

The City has historically deployed Getac semi-rugged laptops in public safety vehicles, with the S410 model used by the Police Department and the V110 model by the Fire Department. These devices are typically replaced on a five-year cycle. In 2025, a limited pilot program was initiated to evaluate Lenovo ThinkPad T14 devices as a potential alternative. The pilot yielded promising results, and the Police and IT departments now intend to expand the use of Lenovo devices while continuing to replace a portion of the existing Getac fleet.

CONCLUSION:

To support the continued modernization of public safety technology, funding is requested in an amount not to exceed \$250,000 for the purchase of both Lenovo and Getac devices. This blended approach ensures continuity of service while allowing for the strategic evaluation of new technology platforms. To ensure competitive pricing, each device will be purchased based on established pricing awarded via state purchasing contracts.

Device Type	Description	Unit Cost	Purchasing Contract
Lenovo	ThinkPad T14 G6 with rugged case, cradle, and vehicle power adapter	\$1,992.00	MHEC Contract No. MHEC063020221
Getac	S410G5 semi- rugged laptop with Windows 11 Pro and 3-year warranty	\$2,659.58	Sourcewell-State of IL Contract No. R- 2571602

This item was recommended for City Council approval by the Communication, Technology and Information Systems Committee at the December 3, 2025 meeting.

Section 2-438 of the City of Joliet Code of Ordinances states that purchases whose estimated cost is in excess of twenty-five thousand dollars (\$25,000.00) may be awarded without written specifications

File #: 650-25 Agenda Date:12/16/2025

or bidding under certain circumstances. Two of these circumstances apply:

(b) Purchases for additions to and repairs and maintenance of equipment owned by the City which may be more efficiently added to, repaired or maintained by a certain person;

(f) Purchases when authorized by a concurring vote of two-thirds of the Mayor and City Council;

Sufficient funds exist utilizing Org: 22060020, Obj: 557700, Project: F9125, \$250,000.00

RECOMMENDATION:

Based on the above, it is recommended that the Mayor and City Council approve funding for Public Safety PC Replacement in an amount not to exceed \$250,000.00.

TO: Mayor and City Council

FROM: Chris Sternal, Director of IT

SUBJECT:

Award of Contract to Orbis Solutions, Inc for Surveillance System Hardware and Installation at the Ottawa Street Parking Deck in the Amount of \$116,927.90

BACKGROUND:

The City of Joliet is preparing for the opening of the new City Square. To support the safety and security of this high-traffic area, installation of a comprehensive surveillance system is proposed for the adjacent Ottawa Street Parking Deck. The system will provide coverage across all stairwells and floors, ensuring visibility and deterrence in key areas including elevators, ceilings, and entry points.

CONCLUSION:

Three competitive quotes were solicited for the project. After thorough evaluation, the lowest qualified quote was submitted by Orbis Solutions Inc., totaling \$116,927.90 for equipment and labor. The proposed system includes high-resolution Axis cameras with night vision, network infrastructure, and installation materials, ensuring robust and scalable security coverage.

Orbis Solutions, Inc proposed surveillance system will significantly enhance public safety and operational oversight in the Ottawa Street Parking Deck, aligning with the City's broader goals for the new City Square.

This item was recommended for City Council approval by the Communication, Technology and Information Systems Committee at the December 3, 2025 meeting.

Section 2-438 of the City of Joliet Code of Ordinances states that purchases whose estimated cost is in excess of twenty-five thousand dollars (\$25,000.00) may be awarded without written specifications or bidding under certain circumstances. Three of these circumstances apply:

- (f) Purchases when authorized by a concurring vote of two-thirds of the Mayor and City Council;
- (g) Purchases of professional services.

Sufficient Funds exist utilizing Org: 02015000, Obj: 524300, \$116,927.90

File #: 651-25 Agenda Date:12/16/2025

Award of Contract for the 2025 Large Water Meter Replacement Program to United Meters Inc. in the Amount of \$242,501.00

BACKGROUND:

On January 5, 2021, the Mayor and City Council approved Resolution No. 7613, committing to water conservation through the reduction of non-revenue water in order to comply with the allocation requirements of the Level of Lake Michigan Act, 615 ILCS 50, and the corresponding State regulations. A condition of the City's Lake Michigan water allocation permit is the completion of the City's Non-Revenue Water Reduction Plan. A significant component of this Plan is water meter replacement. The City maintains over 50,000 water meters, with over 400 large meters measuring 3" or larger.

The scope of the 2025 Large Water Meter Replacement Program includes plumbing and scheduling services to replace the large water meters that need to be replaced due to age or condition.

The Public Service Committee will review this matter.

CONCLUSION:

The 2025 Large Water Meter Replacement Program was advertised in the Herald News on October 16, 2025, and two bids were received on November 12, 2025.

CONTRACTOR United Meters Inc. Calumet City Plumbing & Heating Co., Inc. \$242,501.00 \$270,590.00

Sufficient funds exist in the Water & Sewer Improvement Fund / Meter Repair / Construction (Org 50180320, Object 557200, \$242,501.00).

RECOMMENDATION:

Based on the above, it is recommended that the Mayor and City Council award the Contract for the 2025 Large Water Meter Replacement Program, in the amount of \$242,501.00, to United Meters Inc.

SUBJECT:

Award of Contract for the Sanitary Sewer Rehabilitation project for the 2026 Watermain Replacement Program to National Power Rodding Corp. in the Amount of \$737,425.00, and Amendment No. 1 to the Professional Services Agreement for the 2026 Sanitary Sewer Rehabilitation Program with RJN Group Inc for an Amount not to exceed of \$69,900.00

BACKGROUND:

The 2026 Water Main Replacement Program consists of 12 contracts to replace a total of approximately 19 miles of water main, at a cost of approximately \$60,345,000.00. The Environmental Protection Agency's (EPA) standard requirements for watermain installation requires 18-inches of vertical separation from bottom of water main to top of sewer and 10-feet horizontal separation from edge of water main to edge of sewer. Approximately 9,900 LF of sanitary and storm sewer did not meet EPA's water and sewer separation requirements. To provide the required separation, either the sewers have to be relocated, or EPA allows the sewers to be lined. The most cost-effective method is to line the existing sewers with cured-in-place pipelining (CIPP).

It is also recommended to line the sewer system tributary to the Benton and Maple Lift Station where excessive inflow and infiltration has been observed. The Sanitary Sewer Rehabilitation for the 2026 Watermain Replacement Program includes 2,500 LF of CIPP to reduce the amount of excess flow conveyed to the lift station.

The Sanitary Sewer Rehabilitation for the 2026 Watermain Replacement Program design drawings and bidding documents were prepared and the invitation to bid was advertised in the Herald News on Thursday, November 13, 2025.

The Public Service Committee will review this matter.

CONCLUSION:

On Tuesday, December 2, 2025, at 10:30 a.m., five (5) sealed bids were received for the Sanitary Sewer Rehabilitation for the 2026 Watermain Rehabilitation Program. The bid summary is as follows:

CONTRACTOR	BID AMOUNT
National Power Rodding, Chicago, IL	\$737,425.00
Visu-Sewer of Illinois, Bridgeview, IL	\$880,237.50
Hoerr Construction Inc., Goodfield, IL	\$898,030.00
Insituform Technologies, Romeoville, IL	\$907,131.50

File #: 653-25	Agenda Date: 12/16/2025
· ·	

Inliners Solutions LLC, Orleans, IN \$1,040,180.00

Engineer's Estimate \$1,024,630.00

The low bid from National Power Rodding Corp., in the amount of \$737,425.00, is 28% below the engineer's estimate. National Power Rodding Corp. has previously completed similar work for the City and completed this work to the City's satisfaction.

Funds will be charged to the 2025 Water & Sewer Improvement Fund / Sewer Collection / Construction (Org 50180020, Object 557200, \$737,425.00).

Included with this Contract Award is Amendment No. 1 for the Professional Services Agreement for the 2026 Sanitary Sewer Rehabilitation Program with RJN Group Inc, for an amount not to exceed \$69,900.00, for construction administration and resident engineering services. During construction RJN Group Inc will provide construction related engineering services including inspection of construction, review of contractor submittals, respond to contractor requests for information, review pay requests, attend monthly meetings, and review post construction televising for quality assurance.

Section 2-438 of the City of Joliet Code of Ordinances states that purchases whose estimated cost is in excess of twenty-five thousand dollars (\$25,000.00) may be awarded without written specifications or bidding under certain circumstances. Two (2) of these circumstances apply:

- (f) Purchases when authorized by a concurring vote of two-thirds (2/3) of the Mayor and City Council;
- (g) Purchases of Professional Services

Funds will be charged to the 2025 Water & Sewer Improvement Fund / Sewer Collection / Professional Services (Org 50180020, Object 557200, Project 25040, \$69,900.00).

RECOMMENDATION:

Based on the above, it is recommended that the Mayor and City Council take the following actions:

- 1. Award the Contract for the Sanitary Sewer Rehabilitation for the 2026 Watermain Replacement Program, in the amount of \$737,425.00, on behalf of National Power Rodding Corp.
- 2. Approve Amendment No. 1, to the Professional Services Agreement for the 2026 Sanitary Sewer Rehabilitation Program, in the amount of \$69,900.00, on behalf of RJN Group Inc.

Approval of Professional Services Agreement for Preliminary Engineering for the 2027 Water System Rehabilitation Program to Baxter & Woodman Inc. in the Amount of \$898,700.00

BACKGROUND:

On January 5, 2021, the Mayor and City Council approved Resolution No. 7613, committing to water conservation through the reduction of non-revenue water in order to comply with the allocation requirements of the Level of Lake Michigan Act, 615 ILCS 50, and the corresponding State regulations. A condition of the City's Lake Michigan water allocation permit is completion of the City's Non-Revenue Water Reduction Plan. A major component of this plan is water main replacement. The water main replacement must be sufficient to achieve the reduction of non-revenue water from the City's water system to not more than 10 percent by the year 2030. For the 2027 water main replacement program, 20 miles of water main have been identified for replacement. This is 3% of the total water distribution system.

In order to have contract documents ready to bid in time for the 2027 construction season, preliminary engineering for the 2027 Water System Rehabilitation Program needs to begin at this time. Projects to be included in the 2027 program are identified in the table below. The preliminary estimated construction cost for the projects is \$65,000,000 and will be funded using state and federal low interest loan programs. A more detailed cost estimate will be provided as a scope item of this preliminary design contract.

A qualifications-based selection is required to insure reimbursement for engineering fees from potential loan funding. In Fall 2021 the City published a Request for Qualifications for water system rehabilitation for the 2023 - 2030 water main replacement program. Ten (10) qualifications were received, four (4) firms were interviewed, and the selection committee consisting of staff from both the public utilities and public works departments identified Baxter & Woodman Inc. as the most qualified firm to complete design engineering services for the program. Baxter & Woodman Inc. successfully completed the design for the City's 2017 - 2026 water main replacement projects. Baxter & Woodman Inc. was requested to provide a proposal for design engineering of the 2027

File #: 654-25 Agenda Date:12/16/2025

projects. Due to the economy of scale that this large quantity of design work provides for, our negotiations with Baxter & Woodman Inc. included lowering the standard billing rates to a 3.0 multiplier for design work, which will save the City over 10% compared to standard billing rates.

The Public Service Committee will review this matter.

CONCLUSION:

Baxter & Woodman Inc. has provided a proposal to complete preliminary design engineering for the 2027 Water System Rehabilitation Program. The Professional Services Agreement for the project, for an amount not to exceed \$898,700.00, represents the cost of surveying, survey breakdown, preparing CAD base sheets, utility coordination, and preliminary design for 11 projects. This fee is approximately 1.4% of the construction costs which is within industry standards for a project of this magnitude. As this preliminary design phase of the project is completed, and the scope of the detailed design is determined, a proposal to complete detailed design and bidding services will be provided as an amendment to this contract.

Section 2-438 of the City of Joliet Code of Ordinances states that purchases whose estimated cost is in excess of twenty-five thousand dollars (\$25,000.00) may be awarded without written specifications or bidding under certain circumstances. Two (2) of these circumstances apply:

- (f) Purchases when authorized by a concurring vote of two-thirds (2/3) of the Mayor and City Council;
- (g) Purchases of professional services.

Funds will be charged to the Water Main Replacement Fund / Professional Services (Org 53880000, Object 557200, \$898,700.00).

RECOMMENDATION:

Based on the above, it is recommended that the Mayor and City Council approve the Professional Services Agreement for Preliminary Engineering for the 2027 Water System Rehabilitation Program, in the amount of \$898,700.00, on behalf of Baxter & Woodman Inc.

FROM: Allison Swisher, Director of Public Utilities

SUBJECT:

Approval of Amendment No. 3 for the IDOT - I-80 Reconstruction Coordination and Joliet Water and Sewer Relocation Feasibility Study Professional Services Agreement to V3 Companies in the Amount of \$50,000.00

BACKGROUND:

The Illinois Department of Transportation (IDOT) is currently in detailed design to reconstruct I-80 from Chicago Street to just west of Center Street, including replacement of the I-80 bridge over the Des Plaines River. IDOT's project creates many utility conflicts with the City's water, sanitary sewer, and storm sewer systems. A consultant was needed to complete the tasks of preliminary coordination with IDOT and to complete a detailed utility conflict review. In July of 2023 the Public Utilities Department published a Request for Qualifications (RFQ) for Professional Municipal Services, of which Utility Design Engineering was one of the categories of the RFQ. Twenty-three (23) consultants submitted qualifications for consideration for the Utility Design Engineering category, and upon review of the qualifications, V3 Companies was determined to be the best fit for this project.

On January 18, 2024, a purchase order was issued to V3 for plan review of IDOT's preliminary drawings to establish the scope of needed water and sanitary sewer relocations and to assist the City with coordination of the utility relocation work with IDOT. Subsequently, Amendments No. 1 and 2 were approved for a net increase of \$371,933.00 for completion of detailed design of the water and sewer relocations for the first group of IDOT contracts, stormwater analysis and storm sewer conflict evaluation, and continued assistance with IDOT coordination. Attached is an exhibit showing the IDOT contracts for the I-80 Bridge Relocation Project.

The Public Service Committee will review this matter.

CONCLUSION:

Amendment No. 3, in the amount of \$50,000.00, provides funding to complete the design of water and sewer relocations between the DesPlaines River and the Chicago Street Interchange (IDOT contracts 62R23 and 62F94). The City of Joliet and the Illinois Department of Transportation have entered into an Intergovernmental Agreement for each of these IDOT contracts that include a provision that all City expenses will be reimbursed by IDOT.

Sufficient funds exist utilizing the Water and Sewer Improvement Fund / Engineering Administration / Professional Services (Org 50180013, Object 557200, \$50,000.00, Project 16023).

File #: 655-25 Agenda Date:12/16/2025

Re: Stage Rigging

Ann,

Per our conversations, we offer you this quotation to remove and replace the pipe grid over the stage apron and the pipe battens over the stage.

The pipe grid over the downstage area was installed with sub-size pipe and with weak hangers. The stage lighting pipes and tracks were also installed badly. Some of the hangers were terminated with S-hooks instead of shackles.

The pipe grid over the downstage apron should be removed and replaced with a 1 ½" steel pipe grid on 4' centers in both directions. This grid will have a design load of 25 pounds per linear foot (PLF). This is typical of the design loads we use on many TV and theater pipe grids. This will allow you to have a concentrated load of a lighting fixture per foot or 200 LB of capacity for every 8' of pipe with no rocking or swinging.

We offer the same treatment for the area over the stage area upstage of the plaster line. Curtain tracks, drapery and scenery will hang from the grid. We will start the grid 6' offstage of the proscenium opening on each side of the stage and cover from the plaster line to back wall formed by the dressing room walls. This will allow back lighting, side lighting and places to hang scenery with the same design load of 25 PLF.

Our price for the grid over the stage apron will be \$36,000.00.

Our price for the grid over stage will be \$52,000.00.

We offer you five pipes over the house seating to improve the lighting angle over the cove positions around the perimeter of the house. The cove positions are too low to be effective lighting positions. They are about 10 degrees higher than people's faces. The lighting should be 35 to 40 degrees above to avoid shadows on the upstage wall and light people's faces. In order to hang these pipes, we will have to cut round holes through the ceiling.

www.GrandStage.com (312) 332-5611

Our price for the over house pipes will be \$29,000.00.

None of the above rigging is designed or intended for flying people.

Our onsite labor will be union ironworkers. Taxes are not included per the Illinois tax exempt form we received. Our current insurance will be in effect at the time of this work. We have not included a bond.

We include shop drawings. Demolition of the existing pipe grid and battens is included. We will dispose of the non-reusable scrap to an onsite location provided by the city. Our onsite people will perform daily cleanup. The existing stage drapery tracks and plugging strips will be reinstalled on the new grids. If any electrical disconnections or reconnections are needed, we have not included them. We will be using a scissor lift and a rolling scaffold tower.

Please call if there are questions.

Memo

File #: 660-25 Agenda Date:12/16/2025

TO: Mayor and City Council

FROM: Kevin Sing, Director of Finance

SUBJECT:

Ordinance Abating the Taxes Heretofore Levied for the Year 2025 to Pay Debt Service on \$3,665,000 General Obligation Bonds, Series 2020A and \$93,595,000 General Obligation Bonds Series 2022 of the City of Joliet, Will and Kendall Counties, Illinois of the City of Joliet, Will and Kendall Counties, Illinois

BACKGROUND:

The City issued general obligation debt for Vehicle Replacements(2020A) and Rock Run Crossing TIF (2022). When general obligation debt is issued, a property tax levy is assessed within the City. Since the City uses our local motor fuel tax for the vehicle replacements and the TIF revenues for Rock Run, this ordinance is necessary to remove the levies for 2025 paid in 2026.

This item will be reviewed by the Finance Committee on December 16, 2025.

CONCLUSION:

The City has sufficient funds to make these bond payments from sources other than property taxes. Adoption of this ordinance will avoid the payments being made by an additional charge of property tax bills.

RECOMMENDATION:

Based on the above, it is recommended that the Mayor and City Council approve the Ordinance Abating the Taxes Heretofore Levied for the Year 2025 to Pay Debt Service on \$3,665,000 General Obligation Bonds, Series 2020A and \$93,595,000 General Obligation Bonds Series 2022 of the City of Joliet, Will and Kendall Counties, Illinois.

WHEREAS, the City Council (the "Board") of the City of Joliet, Will and Kendall Counties, Illinois (the "City"), by ordinance adopted on the 6th day of October, 2020 (the "Bond Ordinance"), did provide for the issue of \$3,665,000 General Obligation Bonds, Series 2020A (the "2020A Bonds"), and the levy of a direct annual tax sufficient to pay principal and interest on the 2020A Bonds; and

WHEREAS, the Board, by ordinance adopted on the 2nd day of August 2022 (the "Bond Ordinance"), did provide for the issue of \$93,595,000 General Obligation Bonds, Series 2022 (the "2022 Bonds"), and the levy of a direct annual tax sufficient to pay principal and interest on the 2022 Bonds; and

WHEREAS, the City will have Pledged Revenues (as defined in the Ordinance) available for the purpose of paying the debt service due on the Bonds during the next succeeding bond year; and

2026 BUDGET HIGHLIGHTS

The 2026 budget was developed to maintain the current level of service without increasing the financial burden on the community while simultaneously maintaining our fiscal health and stability. This budget builds on the positive financial decisions made over the past few years. These changes include the allocation of casino gaming revenues to fund government capital expenditures, health insurance cost saving measures, more transparent health and worker's compensation costs reporting, and allocation of local fuel tax revenue to fund vehicle replacements.

The following are highlights for the 2026 fiscal year budget.

- 1) Completion of Chicago Street and City Square This multi-year project will be completed in 2026. The 2026 budget includes \$1,000,000 to be carried forward for construction activities, \$160,000 for audio visual, and \$190,000 for security cameras and required network/technology components.
- 2) Dedication to Public Safety The Police and Fire Departments account for 45.7% of total governmental operating expenses and their staff represents 75% of the total manpower costs for the City.
- 3) Additions to Personnel There are 8 new positions in the General Government Fund and 3 new positions in the Sewer and Water Fund for 2026.
 - a. General Fund
 - i. Deputy Director of Human Resources Human Resources
 - ii. Financial Accountant Police Department
 - iii. 4 Firefighters/Paramedics Fire Department
 - iv. Recruitment & Retention Coordinator Human Resources
 - v. Special Events Coordinator Cultural Affairs

- b. Sewer and Water Fund
 - i. Clerk Typist Customer Service
 - ii. Account Clerk Customer Service
 - iii. Service Worker Customer Service/Field Operations
- 4) Health and Retiree Insurance The 2026 budget includes \$37,625,350 for health insurance.
 - a. \$19,565,182 (52%) is for active employees
 - b. \$18,060,168 (48%) is for retirees
 - c. Represents 16.5% of total General Fund Expenses and continues to escalate
 - i. Projected to be over 20% by 2029

In 2025, the City made changes to non-union employees insurance benefits that resulted in nearly \$500,000 savings annually. While these savings are large, the growing burden of health insurance will increase each year unless more widespread changes are made.

- 5) Funding for Rialto Theater Funding for a \$375,000 grant to the Will County Metropolitan and Auditorium Authority (Rialto Theatre) is included in the 2026 budget. The prior grants were restricted to fund capital improvements at the Rialto Theatre, preserving the historic elements.
- 6) Funding for Joliet Area Historical Museum Funding for a \$250,000 grant is included in the budget. In the past two years this grant has been restricted to support specific operations for the Museum.
- 7) Capital Projects and Equipment The City continues to allocate Casino gaming revenues to fund governmental capital projects and equipment. The 2026 Budget includes \$27,467,250 for Governmental Capital items. This is in addition to \$17,461,000 in Motor Fuel Tax Fund Roadway expenditures and \$3,483,000 in vehicle replacements. The 2026 Budget includes the following Government Capital Projects:
 - a. \$23,462,000 for Roads and Sidewalks
 - i. A minimum of \$2,000,000 must be spent on sidewalks
 - b. \$7,000,000 for Public Safety Institute in partnership with Joliet Junior College
 - c. \$2,733,000 in Vehicles and Equipment for Roadways Division
 - d. \$2,875,000 in Fire Department Vehicles
 - e. \$1,088,000 in replacement Police Vehicles
- 8) Lake Michigan Water project Funding for the project to switch from deep wells to Lake Michigan water is included in the 2026 Budget. This project has three main components:
 - a. Watermain Replacements \$78,000,000
 - b. Improvements to Joliet Water System \$27,900,000
 - c. Costs associated with Grand Prairie Water Commission \$38,000,000
- 9) Westside Wastewater Treatment Plant Expansion The 2026 Budget includes \$3,500,000 to continue the design to expand this wastewater plant.
- 10) Unassigned General Fund Balance The 2026 budget results in the addition of \$8,335 to unassigned fund balance. Unassigned Fund Balance is expected to be 43.9% or 5.3 months of operating expenditures in the General Fund. With current reserve levels, the City is well-positioned to navigate future economic uncertainties with minimal impact on the community. These reserves provide critical flexibility, allowing time to assess potential challenges and respond effectively.

- 11) The 2026 budget proposes total expenditures of \$695,455,399. This is a decrease of 2.42% from the 2025 amended budget of \$711,260,722. Revenues are expected to increase from \$560,405,747 in 2025 to \$635,722,677 in 2026. This increase is largely driven by sewer and water projects. Debt was issued in 2025 to fund these projects.
- 12) The property tax levy was designed such that the rate charged to taxpayers will be the same or lower than in 2025 with an overall budget of \$54,509,502.

GENERAL FUND

The City's General Fund provides essential daily services for the community, including police and fire protection, roadway maintenance, zoning and permitting, customer service, and internal support functions such as information technology, finance, human resources, city clerk, and legal.

The budget recommended for the General Fund in FY 2026 includes an increase to fund balance of \$8,335 resulting in an ending unassigned fund balance of \$99,135,353. The recommendation results in our unassigned fund balance at 43.9% of expenses. The proposed expense budget for the General Fund is \$222,492,747 – an increase of \$12,896,794 over the year end estimate for 2025. Sales taxes are budgeted to increase by 7.3% to \$81,000,000. This is due to increase in prices, additional sales at City retailers, and internet sales tax collections. Sales taxes represent 36% of operating revenues. Interest income is expected to decrease by \$100,000 to \$5,100,000. This reflects expected reductions in short-term interest rates. Municipal Waste fees are expected to be \$17,000,000 in FY 2026 due to a contractual increase in user fees and additional users. Ambulance service fees are expected to increase by \$500,000 because of increased rates and transports.

The total budgeted revenue for the General Fund is \$222,501,083 an increase of \$9,698,705 over the year end estimate for 2025. The largest expenditures in the General Fund are Wages and Fringe Benefits. The chart below illustrates personnel costs as a percentage of total budget:

WORKER'S COMPENSATION FUND

The City's Worker's Compensation Fund contains revenues and expenditures for worker's compensation insurance. Worker's compensation insurance is used to cover payments to medical professionals and individuals who are injured while performing their duties as an employee. This Fund was created for the 2023 fiscal year. The total budget for the Worker's Compensation Fund is \$4,600,000.

EMPLOYEE AND RETIREE BENEFITS FUND

The City's Employee and Retiree Benefits Fund contain revenue and expenditures for the City's hospitalization, dental, life, vision, and preventative care insurance. This Fund was created for the 2023 fiscal year. The total budget for the Employee and Retiree Benefits Fund is \$38,325,350 with roughly 48% of the cost allocated to fund coverage for retirees and their dependents.

CAPITAL PROJECT FUNDS

Capital Project Funds are used to account for financial resources to be used for the acquisition, maintenance and repair of capital items. Examples of capital items include roadways, sidewalks, buildings, vehicles, equipment, and software.

GOVERNMENT CAPITAL PROJECTS FUND

Gaming revenue, which includes wagering tax and admissions tax is expected to increase by \$1,500,000. Expenditures in this fund total \$27,467,250. These expenditures are funded from \$13,500,000 in revenue from the current year and \$7,000,000 from development fees received from Compass Business Park. The remaining funding will be from unspent funds from prior fiscal years where individual projects have not been completed yet.

VEHICLE REPLACEMENT FUND

Local fuel tax revenue is used to fund vehicle replacements. Revenue in this fund is \$0.04 per gallon on the sale of gasoline and \$0.10 per gallon on the sale of diesel fuel. A portion of this revenue is used to fund bond payments (\$434,400) for a 2020 bond that was used to fund vehicle replacements. The remaining revenue (\$3,422,600) is used to replace vehicles annually.

PERFORMANCE BOND FUND

The budget in the Performance Bond Fund is \$5,550,000. The City holds money on account for developers and construction firms that are awarded contracts. The funds are held in escrow until the projects are complete. If the projects are completed successfully the funds are returned to the depositor. The funds are used to complete the project if the work is not completed successfully.

DEBT SERVICE FUND

The Debt Service Fund was established by bond covenants to account for the recording of the collection and expenditures of resources earmarked for the retirement of debt issued directly by the City. The City has two government (non-sewer and water) bonds outstanding; Vehicle Replacements and Rock Run Collection Tax Increment Financing District (TIF). Funding comes from fuel tax and property/sales taxes within the Rock Run Collection project.

SPECIAL REVENUE FUNDS

Special Revenue Funds are maintained to account for specific revenue sources that are legally restricted to expenditures for specific functions or activities. The legal restrictions are imposed by State Statute or Constitution, City Council Resolution or City Charter. The Special Revenue Funds budgeted are:

MOTOR FUEL TAX FUND

The Motor Fuel Tax Fund is used to finance the construction of the City's streets. Motor Fuel Tax Law (35ILCS 506) restricts these funds to the construction and maintenance of the City's streets. The Motor Fuel Tax Fund has a proposed budget of \$17,461,000 for maintenance and construction of streets.

PARKING OPERATIONS FUND

The budget for the Parking Fund is proposed to be \$3,564,4194. This is largely due to \$2,630,000 in capital expenditures. Operating revenues are \$317,419 less than operating expenditures. The City is evaluating changes to the parking operations to reduce the operating deficit.

EVERGREEN TERRACE FUND

This fund is used for tracking expenditures for the housing development commonly known as Evergreen Terrace (Riverwalk Homes). The City acquired the development and property in 2017. The budget recommends a budget of \$1,415,000 for professional services as the project is currently in the process of being redeveloped. The negative fund balance of \$8,025,683 is expected to be reimbursed from operating profits received from the operations of the development.

SPECIAL SERVICE AREA FUNDS

Special Service Area Funds are used to provide special government services in addition to those services provided generally throughout the City. The City has three Special Service Areas: The Joliet City Center Service Area (\$1,425,000 appropriation), the Park Hill Subdivision (\$8,000 appropriation) and various Sidewalks (\$2,000 revenue).

The Joliet City Center Service Area also is budgeted to reimburse the General Capital Projects \$50,000 a year for artificial turf installed in 2017 and 2018 at Slammers Stadium.

BUSINESS DISTRICT FUND

The City's Business District Fund was implemented pursuant to the *Business District Development and Redevelopment Act* for the purpose of creating a Business District to develop, redevelop, improve, maintain, and revitalize areas that have deteriorated and will continue to deteriorate causing a serious menace to the health, safety, morals, and general welfare of the people of the City. The City has created two Business Districts: Lenny's Route 66 Food N Fuel and Mickey Oil Company. Expenses of \$75,000 are budgeted in this fund.

TAX INCREMENT FINANCING FUND #2 – CITY CENTER

The City's TIF Fund #2 (Joliet City Center Redevelopment Project Area) implemented tax increment allocation financing pursuant to the *Tax Increment Allocation Redevelopment Act* in order to promote and protect the health, safety, morals, and welfare of the public by promoting redevelopment of blighted conditions. A budget of \$613,655 is recommended.

TAX INCREMENT FINANCING FUND #3 – CASS STREET

The City's TIF Fund #3 (Cass Street Redevelopment Project Area) was established to encourage economic development, attract private investment, create new employment opportunities, rehabilitate dilapidated or obsolete structures, create additional housing opportunities, and to improve public services and facilities within the district. A budget of \$314,742 is recommended.

TAX INCREMENT FINANCING FUND #4 – PRESENCE SAINT JOSEPH

The City's TIF Fund #4 (Presence St. Joseph Redevelopment Project Area) was established to encourage economic development, attract private investment, create new employment opportunities, rehabilitate dilapidated or obsolete structures, create additional housing opportunities, and to improve public services and facilities within the district. A budget of \$5,500 is recommended.

TAX INCREMENT FINANCING FUND #5 – DOWNTOWN

The City's TIF Fund #5 (Downtown Redevelopment Project Area) was established to encourage economic development, attract private investment, create new employment opportunities, rehabilitate dilapidated or obsolete structures, create additional housing opportunities, and to improve public services and facilities within the district. A budget of \$326,169 is recommended.

TAX INCREMENT FINANCING FUND #6 – SILVER CROSS

The City's TIF Fund #6 (Silver Cross Redevelopment Project Area) was established to encourage economic development, attract private investment, create new employment opportunities, rehabilitate dilapidated or obsolete structures, create additional housing opportunities, and to improve public services and facilities around the former Silver Cross Hospital site. A budget of \$5,500 is recommended.

TAX INCREMENT FINANCING FUND #7 – ROCK RUN CROSSING

The City's TIF Fund #7 (Rock Run Crossing) was established to facilitate the construction of a divergent diamond interchange and a development by Cullinan Properties that includes multiple projects including the construction of a casino. A budget of \$34,917,125 is recommended.

GRANTS AND SPECIAL REVENUE FUNDS

COMMUNITY DEVELOPMENT BLOCK GRANT FUND

The Community Development Block Grant Fund is financed by grants received from the federal government and is restricted for use by the economically disadvantaged citizens of the City. A budget of \$1,076,791 is proposed for the FY 2026 budget. The programs funded include Senior Snow Removal, Community Facilities, Public Services, Housing Counseling, and Housing Rehabilitation.

MISCELLANEOUS GRANT FUND

The Miscellaneous Grant Fund is used to account for grant revenue and expenses. The two largest grants are the Will County ETSB grant totaling \$1,200,000 for police and fire equipment and Tri-County Auto Theft Grant is budgeted for \$2,142,500.

SPECIAL REVENUE REVOLVING FUND/POLICE FORFEITURE FUND

The Special Revenue Revolving Fund is used to account for funds received from police activities and are restricted for specific purposes. A budget of \$1,434,750 is recommended.

FOREIGN FIRE TAX FUND

The Foreign Fire Tax Fund is funded by a surcharge put on insurance policies by insurance companies who don't have a presence in the State of Illinois. Expenditures are limited to purchases for the fire department. A budget of \$330,000 is recommended.

POLICE AND FIRE PENSION FUNDS

These funds receive property taxes that are required to be levied to properly fund the annual pension obligation. The expenses are the same as the revenue to reflect the funds being transferred to the pension fund. The City funds 102% of the statutorily required contribution to decrease the unfunded liability of the pension fund.

ENTERPRISE FUND

The City's Sewer and Water Fund is operated as an Enterprise Fund. The fund is financed and operated in a manner like a private enterprise. The intent is that costs (expenses, including depreciation) of providing water and sewer services to the public are recovered through user charges.

SEWER AND WATER FUNDS

The budget for the Sewer and Water Operating Fund is proposed to be \$89,623,422. This budget includes a 17.5% increase in water rates and 6% increase in sewer rates adopted in 2023.

The recommended budget in the Water & Sewer Capital Fund is \$15,056,000 and includes equipment, vehicles, and the ongoing maintenance of wells, water towers, sewer lines, treatment plants, and lift stations.

Additional major capital projects in the Water and Sewer Fund are watermain replacements totaling \$86,668,400; improvements to the Joliet water system to accept Lake Michigan water totaling \$31,320,000; and improvements to the Grand Prairie Water Commission's system to transmit Lake Michigan water to the City of Joliet totaling \$41,000,000.

ACKNOWLEDGEMENTS

The 2026 budget reflects the hard work and effort of Mayor D'Arcy, City Council Members, City Manager Beatty, Department Heads, Budget Director Bowles, Deputy Directors, Division Heads, and various support staff.

Respectfully submitted at the direction and support of City Manager Beth Beatty.

Kevin Sing Director of Finance

GENERAL OPERATING FUND

GENERAL FUND

OVERVIEW

The City's General Fund contains the budgetary and financial controls for all the City's activities and functions which are not accounted for in other specialized funds, which contain restrictions on the usage of the fund's assets, mandated by City Charter, City Ordinance, City Resolutions, State Statute or bond covenants. This fund contains budgets for all Operating Departments. The General Fund uses the current financial resources measurement focus and the modified accrual basis of accounting for budgeting which recognizes revenue when it is both measurable and available. Expenditures are recognized as soon as a liability is incurred.

The General Fund anticipates adding to Fund Balance \$13,241 for the 2026 Fiscal Year. The Undesignated General Fund Balance is anticipated to be \$97,760,782.

REVENUE

The proposed budget recommends revenues in the General Fund of \$222,510,083.

EXPENDITURES

The total appropriation for the General Fund is \$222,487,842.

FUND BALANCE

It is estimated that the City's Undesignated General Fund Balance will be \$97,760,782 at the end of FY 2026. This is projected to represent approximately 43.9% or 5.3 months of operating expenditures.

PERFORMANCE OBJECTIVES

The Undesignated Fund Balance will be maintained at not less than 20% of operating revenues and expenditures. The current budget meets the fund balance goal for expenditures. This equates to 5.3 months of expenses.

POLICE

CITY OF JOLIET

Police Department

OVERVIEW

The Joliet City Charter adopted in 1852 states the City Council shall have the power and authority to "regulate the police of the city, to impose fines and forfeitures and penalties or the breach of any ordinances, and to provide for the recovery and appropriation of such fines and forfeitures and the enforcement of such penalties". Ordinance 4142 adopted July 19, 1955, states, "The Police Department shall consist of the Chief of Police, who shall be Director of the Department, and other members and officers as may be provided for from time to time by the City Council. The Chief of Police shall be appointed by the City Manager, subject to the Council's approval". On November 5, 1963, Section 33-1 of the code of ordinances was changed to read, "There is hereby established a department of municipal government of the city, which shall be known as the police department, and which shall consist of a chief of police and such other positions as may be provided for by the City Council in the appropriation ordinance".

Ordinance 4142 states, "It shall be the duty of the members of the Police Department to see to the enforcement of all city ordinances of the City, and all statutes effective in the City, and to preserve order and prevent infractions of the law and to arrest violators thereof. Every member of the Police Department is hereby declared to be a conservator of the peace".

FY 2025 ACCOMPLISHMENTS

Purchased and deployed the AXON AI Era Bundle, which includes advanced Translation and General Knowledge capabilities integrated into all issued Body-Worn Cameras (BWC) for sworn personnel. The translation feature supports over 50 languages, significantly enhancing our ability to provide prompt and effective service to individuals with limited English proficiency. The General Knowledge feature enables officers to access real-time information, such as hazardous material placard details, directly through the BWC, eliminating the need to consult a separate device.

Successfully implemented department-wide performance evaluations through CI Technologies, the distributor for Make Note. This platform allows supervisors to document employee performance and behavior throughout the year, offering a more comprehensive and consistent evaluation process. Employees are notified via department email and have the opportunity to respond to entries.

Fully launched Blue Team across the department. This platform now serves as our primary system for frontline documentation, supervisory oversight, and ensuring organizational accountability.

PERFORMANCE OBJECTIVES: FY 2026

Continue preparations for the upcoming on-site assessment by the Illinois Law Enforcement Accreditation Program (ILEAP). Accreditation through ILEAP strengthens departmental compliance with best practices in policy and procedure, and provides validation from an independent, authoritative law enforcement body.

Continue to update Investigation Division technology to assist in solving crimes. Acquire seven additional detectives to help reduce caseload concerns and improve efficiency within the division.

Increase police staffing levels to 300 officers by filling the open and allotted positions. Increase staffing in the Neighborhood Orientated Policing Team to allow for two-person units in the St. Pat's area, the far west area, Benton and Garnsey (new area), and a new one-person unit in the Reedswood area. Increase staffing of Truck Enforcement Officers to address the increased commercial traffic on the city's roadways.

Fill all open and budgeted Public Safety Dispatcher positions to ensure adequate staffing levels.

Explore partnerships with private companies to manage and oversee the City's crossing guard program. This will help improve staffing availability and enhance safety for school-aged children who walk to and from school.

Continue sending Sergeants and Lieutenants to the Northwestern University School of Police Staff and Command (SPSC). This intensive 10-week program combines in-person lectures and assignments, equipping participants with advanced leadership and management skills. It is recognized as a premier program for preparing law enforcement professionals for senior command roles.

FIRE

CITY OF JOLIET

Fire Department

OVERVIEW

The Joliet City Charter adopted in 1852 states the City Council shall have the power and authority "To provide for the prevention and extinguishment of fires, and to organize and establish fire companies." Chapter IX of the City Charter, adopted in 1857, sets forth the duties and rules of the Fire Department and states the common council shall "Prescribe the duties of firemen, and to make the rules and regulations of their government". Ordinance 4142, adopted July 19, 1955, states, "There is hereby created and established a Fire Department for the City consisting of the Fire Chief, who shall be Director of the Department, and such other members as may be provided for by the Council. It shall be the function and duty of the Fire department and every member thereof to extinguish accidental or destructive fires, to prevent the occurrence and spread of such fires".

Our Mission is to protect and enhance the quality of life in our community through education, active intervention, innovative prevention, and professional response.

The Joliet Fire Department will be a progressive community-orientated organization that leads the community in public safety through strong outreach and education programs. We will maintain aggressive, offensive firefighting tactics, provide advanced emergency medical services and environmental protection.

EXPENDITURES

Expenditures are expected to increase in this department by \$4,031,258 from the 2024 budget. This is due to increased payroll and pension expenses.

FY 2025 ACCOMPLISHMENTS

Expanded the community paramedicine program to work with the Will County Health Department to fill gaps in access to healthcare.

- ➤ Moved FMRS and PCR reports to the First Due platform.
- The summer intern program successfully tested the fire hydrants of our busiest companies, allowing more time for training and working with the community.
- The community care program saw a record number of clients and continues to grow to meet the basic needs of our residents.
- > JFD members received 133 new certifications in 2024.

PERFORMANCE OBJECTIVES: FY 2026

- Expand the fall program to reduce the number of falls in the community.
- ➤ Begin construction of a regional training facility and the relocation of Station 7.
- Expand the summer intern program to test all fire hydrants in 2026.
- Increase fire inspections using off-duty firefighters to reduce the risks to our community.

2024 Incidents

The Joliet Fire Department responded to a record 23911 incidents, representing an increase of 15% from 2020. Emergency medical calls accounted for seventy-five percent of the incidents. Fire-type responses, including fire alarms, hazardous conditions, service calls, good intent calls, and fires, comprise the other twenty-two percent of the incidents. There were three hundred seventy-eight fires. Over half of the fire responses are for structures, vehicles, and cooking-related fires. Cooking fires continue to be our number one cause of structure fires.

SEWER AND WATER FUND

CITY OF JOLIET

Water and Sewer Fund

OVERVIEW

The Water and Sewer Fund is an Enterprise Fund. The fund is financed and operated in a manner similar to a private enterprise. The intent is that costs (expenses, including depreciation) of providing water and sewer services to the general public are recovered through user charges. The fund uses full accrual accounting based on Generally Accepted Accounting Principles (GAAP) and follows accounting and financial activities prescribed by the Financial Accounting and Standards Board (FASB) as long as it does not conflict with the Government Accounting Standards Board (GASB) guidance.

The City's water supply is obtained from 21 deep wells and 5 shallow wells. Water is pumped from the ground and treated at the City's 11 water treatment plants. The existing water distribution system consists of 679 miles of watermain including 9,137 fire hydrants.

The City operates three wastewater treatment plants: the Eastside Wastewater Treatment Plant (placed in service in 1957), the Westside Wastewater Treatment Plant (placed in service in 1976) and the Aux Sable Creek Basin Wastewater Treatment Plant (placed in service in 2006). The wastewater collection system consists of 601 miles of combined and separate sanitary sewers.

Twelve activities comprise the Water and Sewer Services: Customer Fund Service. Utilities Administration, Plant Operations Administration, Aux Sable Treatment Plant, Eastside Treatment Plant, Water Services, Westside Treatment Plant, Water Field Operations, Sewer Field Operations, Field Operations Administration, Meter Repair, and Engineering Administration. Customer Service is administered by the Finance Department that includes collection and billing. All other functions are administered by the Public Utilities Department. The Public Utilities Department was created by Ordinance 15704, adopted in November, 2006, which states, "the Department of Public Utilities shall have administrative jurisdiction of the City public water supply and City sanitary sewer and wastewater treatment systems".

Also in the fund is the activity for the 24 Illinois Environmental Protection Agency (IEPA) loan funds.

EXPENDITURES

The total appropriation for the Water and Sewer Fund is \$89,623,411

Capital Outlay

An appropriation of \$30,391,000 is recommended. While this amount is an increase of \$13.48 million from FY 2024, it is due to projects traversing multiple fiscal years. For the detail of the recommendations, please refer to the Capital Improvement schedule in the Water & Sewer Improvement Fund section of this document.

File 8849-W

City of Joliet 150 West Jefferson Street Joliet, IL 60432

Party or parties of the second part, hereinafter called the Licensee,

WITNESSETH:

- 1. In consideration of a one-time fee of \$4,800.00 in hand paid by the Licensee to the Railroad, the receipt whereof is hereby acknowledged and the faithful performance by the Licensee of the covenants herein contained, the Railroad, insofar as it lawfully may, hereby grants to the Licensee license and permission to construct and install a 12-inch steel water main within a 36-inch steel casing (whether one or more pipes, cables or conduits hereinafter referred to as the "pipeline") across, along and underneath the property of the Railroad at Milepost .95 on the MATTESON subdivision in JOLIET, Illinois, said pipeline being more particularly shown upon the exhibits hereto attached and made a part hereof, subject to the following conditions and specifications:
- 2. The license and permission herein granted to Licensee are subject and subordinate; however, to the rights in Railroad, its successors and assigns, its grantees, lessees and licensees, to construct, reconstruct, operate, use, maintain, repair and renew on, beneath or above the property covered hereby, any structures, improvements or facilities of similar or different character as are now or in the future may be located on, beneath or above said properties.
- 3. Licensee shall, except in emergencies, give not less than 72 hours written notice to Railroad of the day, hour and location that it proposes to undertake any construction or maintenance work and in the event of an emergency shall notify Railroad as soon as possible.

Licensee shall require each of its contractors and subcontractors to observe and conform to the conditions and requirements specified herein; and for the purposes of the safety, protective and indemnification provisions hereof, such contractors and subcontractors,

their agents, servants and employees, and other persons on the Railroad property at the invitation of the Licensee, its contractors or subcontractors, shall be deemed the agents or employees of the Licensee.

- 4. Licensee shall, at no expense to Railroad, obtain all permits and approvals required to exercise this license and Licensee shall install, maintain and operate its facilities in accordance with all requirements of lawful public authority. Licensee shall be responsible for any taxes, assessments and charges made against the pipeline or other of Licensee's facilities on Railroad's property or the operation of any of them.
- 5. The pipeline shall be installed at least 8 feet below the tracks of the Railroad, measured from base of rail to top of pipeline or, if no tracks are located on the property, at least 6 feet below natural ground. Said pipeline shall be constructed of such material and in such a manner as will assure the safety of Railroad. Railroad's authorized representative shall have the right, but not the duty, to require certain materials or procedures to be used or to supervise the construction, maintenance, restoration or other work on Railroad's property. If in the opinion of Railroad's authorized representative casing of the pipeline is required at the time of installation or at any time subsequent thereto, Licensee shall promptly arrange for such casing at its own risk and expense.
- 6. If, in the opinion of the authorized representative of Railroad the work to be done by the Licensee pursuant to this agreement will make necessary or desirable any change in the Railroad's facilities, or those of the Railroad's tenants or licensees, on the Railroad's property, the Railroad shall have the right, but not the duty, to make such changes, the expense thereof to be borne by the Licensee.

Railroad shall have the right, but not the duty, to furnish flagging or other protection or to perform work to support its tracks or otherwise protect its property or facilities at any time, at Licensee's sole risk and expense.

- 7. Licensee agrees at any time, or from time to time, at its own risk and expense, upon request of the authorized representative of the Railroad, to make such change or changes as may be necessary in the opinion of said representative to accommodate any change or improvements which Railroad may desire to make in or upon its property. In case Licensee shall fail within thirty (30) days after notice from Railroad to make such change or changes, Railroad shall have the right, but not the duty, to make such change or changes, or remove Licensee's facilities from said property at the risk and expense of Licensee.
- 8. Licensee shall at its expense take such measures as may be necessary and adequate in connection with its property or the property of railroad to protect facilities of Railroad and those of others using Railroad's property from interference by induction, conduction,

physical contact or otherwise attributable to the exercise by Licensee of the license granted to it.

In the event Railroad advises Licensee to take any action to protect Railroad, its facilities or facilities on Railroad's property, Licensee shall promptly take the indicated action, including, but not limited to, stopping the operation of the pipeline. If Licensee fails to do so, Railroad shall have the right, but not the duty, to perform on behalf of Licensee at the sole risk and expense of Licensee.

- 9. In the event Railroad elects to renew, replace, repair or alter any tracks or other facilities or to construct new facilities or to make other use of the property covered by this license, and in connection therewith requires the removal of any facilities placed by Licensee on Railroad's property or should any facilities of Licensee need renewal or repair, Licensee shall, within 30 days of receipt of notice, arrange for such removal, renewal or repair at Licensee's risk and expense. In the event removal is required, the facilities shall be relocated at such location on Railroad's property as is designated by Railroad, provided that Railroad's authorized representative determines that a location is reasonably available. Renewal or repair shall be to such condition as is indicated by Railroad's authorized representative. If Licensee fails to comply with the foregoing, Railroad shall have the right, but not the duty, to remove, renew or repair such facilities at the sole risk and expense of Licensee.
- 10. Cost and expense for work performed by the Railroad pursuant to this agreement shall consist of the direct cost of labor and material plus Railroad's standard additives in effect at the time the work is performed. All payments required of Licensee under this agreement shall be made promptly upon presentation of a bill.
- 11. Licensee, as a further consideration and as a condition without which this license would not have been granted, agrees to indemnify and save harmless Railroad, its officers, employees and agents and to assume all risk, responsibility and liability for death of, or injury to, any persons, including, but not limited to, officers, employees, agents, patrons and licensees of the parties hereto, and for loss, damage or injury to any property, including but not limited to, that belonging to the parties hereto (together with all liability for any expense, attorneys' fees and costs incurred or sustained by the Railroad, whether in defense of any such claims, demands, actions and causes of action or in the enforcements of the indemnification rights hereby conferred) arising from, growing out of, or in any manner or degree directly or indirectly caused by, attributable to, or resulting from the grant or exercise of this license or the construction, maintenance, repair, renewal, alteration, change, relocation, existence, presence, use, operation, or removal of any structure incident thereto, or from any activity conducted on or occurrence originating on the area covered by the license regardless of the negligence of Railroad, its officers, employees and agents. Licensee further agrees to release and indemnify and save harmless Railroad, its officers, employees, agents, patrons or invitees from all liability to Licensee, its officers, employees, agents or patrons, resulting from

railroad operations at or near the area in which the license is to be granted whether or not the death, injury or damage resulting therefrom may be due to the negligence of the Railroad, its officers, employees or agents or otherwise. At the election of Railroad, the Licensee, upon receipt of notice to that effect, shall assume or join in the defense of any claim based upon allegations purporting to bring said claim within the coverage of this section.

12. Licensee shall secure and maintain in place so long as this agreement is in effect, Commercial General Liability Insurance (Occurrence Form) in an amount not less than \$5,000,000 per occurrence, with an aggregate of not less than \$10,000,000 per annual period. The policy must name Railroad and its parent company, Canadian National Railway Company, as additional insureds in the following form:

Before commencing work, Licensee shall deliver to Railroad a certificate of insurance evidencing the foregoing coverage's and true and complete copies of the policies described above. Each policy shall include a waiver by the insurer of any right of subrogation against any recovery by or on behalf of any insured. Each policy shall provide for not less than thirty days prior written notice to Railroad of cancellation of or any material change in that policy.

- 13. If a contractor is to be employed by the Licensee for the installation of Facilities pursuant to this License, then, before commencing work, the contractor shall provide and maintain the following insurance, in form and amount and with companies satisfactory to, and as approved by, the RAILROAD.
 - A. Statutory Workers' Compensation and Employer's Liability insurance.

The Policy must name the appropriate RAILROAD as the insured, and shall provide for not less than ten (10) days prior written

notice to the RAILROADS as cancellation of, or any material change in the policy.

- 14. It is expressly understood Railroad does not warrant title to the premises and Licensee accepts the grant of privileges contained herein subject to all lawful outstanding existing liens and superior rights. Licensee agrees it shall not have to make any claim against Railroad for damages on account of any deficiency in title and agrees that in the event of failure or insufficiency of such title the sole remedy of Licensee shall be the right to return of the consideration paid in advance, provided for herein, or a proportionate part thereof in the event of a partial deficiency or insufficiency of title. Licensee further agrees to indemnify and save harmless the Railroad and to assure all risk, responsibility and liability (including any expenses, attorneys' fees and costs incurred or sustained by Railroad) arising from, growing out of, or in any manner or degree directly or indirectly attributable to or resulting from any deficiency or insufficiency of its title affecting the right of the Railroad to make this grant.
- 15. This agreement shall continue in force indefinitely from and after the date hereof, subject, however, to the right of either party to terminate this agreement as to the entire pipeline and all of the facilities of Licensee, or any part thereof, at any time or from time to time, as it may require, upon giving the other party ninety (90) days notice in writing of its desire to terminate this agreement, and indicating in said notice the extent of said line and facilities to which such termination shall apply. When this agreement shall be terminated as to the entire line and all of the facilities of Licensee or as to any part thereof, Licensee within thirty (30) days after the expiration of the time stated in said notice, agrees at its own risk and expense to remove said facilities from the property of Railroad, or such portion thereof as Railroad shall require removed, and to restore the railroad premises to a neat and safe condition, and if Licensee shall fail to do so within said time, Railroad shall have the right, but not the duty, to remove and restore the same, at the risk and expense of Licensee. Nothing herein contained shall be construed as conferring any property right on Licensee.
- 16. In case Railroad shall at any time, or from time to time, require the removal of only a portion of said pipeline, this agreement shall continue in force and be applicable to the portion of portions of said pipeline and other facilities remaining from time to time until said entire pipeline has been removed and the rental shall be adjusted accordingly.
- 17. Nothing in this agreement shall be construed to place any responsibility on Railroad for the quality of the construction, maintenance or other work performed on behalf of Licensee hereunder or for the condition of any of Licensee's facilities.

Any approval given or supervision exercised by Railroad hereunder, or failure of Railroad to object to any work done, material used or method of construction, reconstruction or maintenance, shall not be construed to relieve Licensee of its obligations under this Agreement.

- 18. This Agreement shall not be binding on either party hereto until all parties have executed the space provide below.
- 19. This Agreement shall be binding on the successors and assigns of the parties hereto, but no assignment hereof by the Licensee, its successors, legal representatives or assigns, shall be binding upon the Railroad without its written consent in each instance.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed in duplicate, the day and year first above written.

PIPELINE LICENSE AGREEMENT

THIS LICENSE AGREEMENT ("Agreement"), Metra Agreement No. _____, is entered into by and between the Commuter Rail Division of the Regional Transportation Authority, a division of an Illinois municipal corporation whose address is 547 West Jackson Boulevard, Chicago, Illinois 60661 ("Metra"), and City of Joliet, a(n) Illinois municipal corporation with offices located at 150 West Jefferson Street, Joliet, Illinois 60432, ("Licensee").

NOW, THEREFORE, for and in consideration of payments to be made to Metra by Licensee, as hereinafter set forth, and also of the covenants and agreements hereinafter stated, Metra hereby grants to Licensee a non-exclusive license ("License"), being five (5) feet in width to use Metra's property for the purpose of installing a sixteen (16)-inch ductile iron water main to transport water ("Pipeline"), and for no other purpose, along, across and underneath the right of way and tracks (or track, as the case may be) owned and/or controlled by Metra located approximately 100 feet east of Henderson Avenue, (MP 39.40) in Joliet, Illinois, on Metra's Rock Island Line (GPS coordinates 41.525047, -88.064152), as delineated on Exhibit "A" ("License Premises") attached to and made a part of this Agreement, together with the right of reasonable access thereto for the purpose of exercising the rights and privileges granted in this Agreement. Licensee to maintain, operate and renew the same during the continuance of this License.

THIS LICENSE is granted upon the following express conditions, terms, and covenants to be observed, kept and performed by Licensee:

- 1. As one of the considerations for this License, Licensee agrees to pay to Metra the sum of \$2,500 for the cost of preparing this License, payable in advance.
- 2. (a) Said Pipeline shall be constructed in accordance with the specifications and notes set forth on Exhibit A. The installation of said Pipeline, including but not limited to the digging and filling of any trench and the time and manner of doing all of the work or of any maintenance, repairs, replacements, or renewals upon the License Premises, shall be as directed by Metra's authorized representatives.
- (b) All of said work shall be done at Licensee's sole cost and expense, in a good and workmanlike manner, and in accordance with the plans, specifications, and profiles to be prepared by Licensee and submitted for approval to Metra's authorized representative(s), and until such approval is given, said work shall not be commenced by Licensee.
- (c) Licensee agrees that it will bear and pay the entire cost of constructing, maintaining, repairing, replacing, and operating said Pipeline. Licensee shall install, construct, maintain, repair, replace, and operate the Pipeline in accordance with all applicable federal, state, and local municipal laws, ordinances, rules, and regulations promulgated by governmental authorities.
- (d) Licensee shall not commence work upon the License Premises until Metra shall have approved Licensee's plans, specifications and profiles, such approval not to be unreasonably withheld or delayed. Metra's approval of Licensee's plans, specifications, and profiles shall not relieve Licensee of the duty to verify that the plans, specifications and profiles, and all amendments thereto, are in compliance with the requirements of this paragraph.
- (e) Any assignment, sub-licensing, leasing, addition of more pipes, capacity, equipment, or any other expansion of the use of the License Premises beyond that indicated in the plans and specifications approved by Metra, is strictly prohibited without the prior written consent by Metra. Any such changes made without Metra's consent shall be void and will be considered a material breach of this Agreement allowing Metra, at its discretion, to terminate this Agreement and require Licensee to remove the Pipeline and any other facilities or equipment from the License Premises.
- 3. Upon completion of the initial installation and construction of the Pipeline, and upon completion of any subsequent installation, reconstruction, replacement, repair or maintenance of the Pipeline subsequent to its construction, Licensee, at its own cost and expense, shall remove any debris and restore, or cause to be restored to the reasonable satisfaction of Metra, the License Premises and any other affected portion of Metra's property ("**Property**") as nearly as may be possible, to the same or better condition than that which existed immediately prior to commencement of such activities by Licensee. In the event Licensee fails to cause the Premises and the Property to be restored to the reasonable satisfaction of Metra as provided for herein, Metra shall have the right to restore the License Premises and the Property and Licensee shall reimburse Metra for all costs and expenses incurred by Metra in its performance of the obligations imposed upon Licensee hereunder.

- 4. Metra shall permit Licensee reasonable right of entry to the License Premises for the purpose of routine maintenance and operation of said Pipeline. Licensee's contractor(s) will be required to enter into a Right of Entry Agreement with Metra prior to any access to the License Premises for the purpose(s) of installation, construction, reconstruction, repair, replacement, or removal of said Pipeline. An application for a Right of Entry Agreement can be found at Metra's website: https://metra.com/advertising-and-partnering-with-metra, or by contacting Metra's Right of Way Administrator at 312-542-8189. Licensee shall contact Metra's Right of Way Administrator prior to performing any construction, revision, or action to the Pipeline or on the License Premises or Property beyond that which would be reasonably considered routine maintenance and/or operation of the Pipeline. Said construction, revision, or action may require railroad flagging protection and/or revised insurance requirements depending on the scope of the work to be performed and the proximity of said work to the live tracks.
- Any rights to the License Premises not specifically granted to Licensee herein are reserved to Metra and its successors and/or assigns. The Pipeline shall be installed, constructed, repaired, maintained and operated in a manner so as not to interfere with efficient rail operations or any other business operations or activities being conducted by Metra or Metra's tenants or permittees on the License Premises and so as not to prevent or unreasonably interfere with use and enjoyment of the License Premises by Metra, its employees, agents or permittees for the purpose(s) to which the License Premises is now, or may hereafter be, committed by Metra. Metra shall have the right to retain the existing tracks and other improvements at the location of this Pipeline on or adjacent to the License Premises and also shall have the right at any and all times in the future to construct, maintain and operate over, under, across or parallel to said Pipeline such additional track or tracks as it may from time to time elect. Nothing shall be done or caused to be done by Licensee that will in any manner impair the usefulness or safety of the tracks and other improvements of Metra, or such track or tracks and other improvements as Metra may in the future construct or cause to be constructed over, under, across, or parallel to said Pipeline. This License is expressly subject to the rights of third parties to maintain utility and other improvements permitted by Metra on the License Premises and the Property. Metra reserves the exclusive right to grant future licenses over, under, across or parallel to said Pipeline, provided such licenses do not interfere with the Pipeline and the rights granted Licensee pursuant to this Agreement, as determined by Metra in its sole discretion.
- 6. Licensee shall not place, keep, store, or otherwise permit any equipment or materials to be placed, kept or stored on the License Premises or the Property except during such time as Licensee's employees, agents or contractors are physically present and conducting activities permitted under the terms of this License. Licensee agrees that it shall not operate or cause to be operated any vehicle of any kind on the License Premises, on any track or on the Property without prior authorization from Metra's authorized representative; provided, however, that Licensee shall not be prohibited from operating Licensee's vehicles and equipment on any public crossing of Metra's tracks and rights of way. If deemed necessary by Metra, Railroad flagging will be provided by Metra, the cost of such services to be paid by Licensee. An \$850.00 minimum daily deposit is required for flagging costs. Metra's flagging fees are based on actual expenses incurred for the project. The daily deposit is based on one (1) flagger during the hours of 7am to 3pm. Additional costs may be incurred for: additional flaggers, travel hours, overtime

or holiday work, equipment and/or materials. Expenses charged against the project will be deducted from the initial deposit. Any costs exceeding the deposit will be billed accordingly.

- 7. Licensee agrees that it will, immediately upon receipt of a statement showing the amount thereof, pay all costs of any and all work performed upon the right of way and tracks of Metra which shall be made necessary by the construction, maintenance, repair, replacement, renewal, or presence thereon of said Pipeline.
- 8. Licensee agrees that before and during the installation, construction, replacement, repair, maintenance, or operation of said Pipeline, or at any other time, Metra shall have the right to provide such safe and temporary structures as it may deem necessary for safely caring for and preserving its tracks, buildings or other improvements and Licensee agrees to pay to Metra the entire cost of putting in or removing such temporary structures and of restoring the License Premises and the Property as near as may be possible to the same condition that existed before the commencement of said work.
- 9. Licensee agrees that should the construction, maintenance, operation, repair, or presence of the Pipeline necessitate any change or alteration in the location or arrangement of any other pipelines, appurtenances or other improvements located on the License Premises or the Property, the cost of such change or alteration shall be paid by Licensee within thirty (30) days of presentation of a bill by Metra. Licensee further agrees that if, at any time, Metra shall desire to change the location or grade of its track or tracks or shall desire to use or allow third party railroads to use its right of way at said point of crossing or at any point along a parallel course with the Pipeline for any purpose whatsoever, including but not limited to track installations by Metra or third parties, Licensee, at its own cost and expense, shall alter, relocate or make all changes to the Pipeline required by Metra. If Licensee shall fail, neglect, or refuse to relocate or make such change(s) to the Pipeline for a period of ninety (90) days after the receipt of written notice from Metra, then Metra may make or cause to be made such relocation or change(s) at the expense of Licensee.
- said Pipeline in a secure, safe and sanitary condition and in accordance with all applicable laws, ordinances, rules and regulations. Licensee shall take all reasonable safety precautions to adequately secure the License Premises, warn of risks and ensure the safety of the public during periods of construction, reconstruction, replacement, repair, maintenance, and operation of the Pipeline. If the manner of installing, constructing, repairing, maintaining, replacing, or operating said Pipeline shall at any time be in violation of any applicable law, rule, regulation or ordinance, then Licensee, at no cost or expense to Metra and upon receipt of appropriate notice from a governmental agency having enforcement jurisdiction over the License Premises, shall make such changes or repairs as shall be necessary. Failure or refusal of Licensee to make the required changes or repairs within the time prescribed by said agency shall terminate this License, provided that it shall not terminate as long as Licensee, in good faith and by pursuit of appropriate legal or equitable remedies, enjoins, defends against, appeals from or pursues other lawful measures to avoid the enforcement of said laws, rules, regulations or ordinances.

- To the fullest extent permitted by law, Licensee hereby assumes and agrees to release, acquit and waive any rights against and forever discharge Metra, the Regional Transportation Authority ("RTA") and the Northeast Illinois Regional Commuter Railroad Corporation ("NIRCRC"), their respective directors, administrators, officers, employees, agents, successors, assigns and all other persons, firms and corporations acting on their behalf or with their authority from and against any and all claims, demands or liabilities imposed upon them by law or otherwise of every kind, nature and character on account of personal injuries, including death at any time resulting therefrom, or on account of damage to or destruction of property arising out of or in any way relating to or occurring in connection with, the use of the License Premises or any other Metra property ("Property") for the purposes set forth in this Agreement, or which may occur to or be incurred by Licensee, its employees, officers, agents and all other persons, firms and corporations acting on Licensee's behalf or with Licensee's authority while on the License Premises or Property or arising from the condition of the License Premises or the Property during the term of this Agreement, whether or not such injuries or damages are caused by the actions, omissions or negligence of Metra, the RTA, or the NIRCRC. Notwithstanding anything in this Agreement to the contrary, the releases and waivers contained in this paragraph shall survive termination of this Agreement.
- To the fullest extent permitted by law, Licensee agrees to indemnify, defend and hold harmless Metra, the RTA and the NIRCRC, their respective directors, administrators, officers, agents, employees, successors, assigns and all other persons, firms and corporations acting on their behalf or with their authority, from and against any and all injuries, liabilities, losses, damages, costs, payments and expenses of every kind and nature (including court costs and attorneys' fees) as a result of claims, demands, actions, suits, proceedings, judgments or settlements arising out of or in any way relating to or occurring in connection with, the use of the License Premises or the Property for the purposes set forth in this Agreement, or the condition of the License Premises or the Property, or which may occur to or be incurred by Licensee, its employees, officers, agents, and all other persons, firms and corporations acting on Licensee's behalf or with Licensee's authority while on the License Premises or the Property, whether or not such injuries, liabilities, losses, damages, costs, payments or expenses are caused by the actions, omissions or negligence of Metra, the RTA or the NIRCRC. Metra agrees to notify Licensee in writing within a reasonable time of any claim of which it becomes aware which may fall within this indemnity provision. Licensee further agrees to defend Metra, the RTA, the NIRCRC, their respective directors, administrators, officers, agents and employees against any claims, suits, actions or proceedings filed against any of them with respect to the subject matter of this indemnity provision, whether such claims, suits, actions or proceedings are rightfully or wrongfully made or filed; provided, however, that Metra, the RTA and the NIRCRC, may elect to participate in the defense thereof at their own expense or may, at their own expense, employ attorneys of their own selection to appear and defend the same on behalf of Metra, the RTA, the NIRCRC, and their respective directors, administrators, officers, agents or employees. Licensee shall not enter into any compromise or settlement of any such claims, suits, actions or proceedings without the consent of Metra, the RTA and the NIRCRC, which consent shall not be unreasonably withheld. Notwithstanding anything to the contrary contained in this Agreement, the indemnities contained in this paragraph shall survive termination of this Agreement.

- 13. Prior to entering upon the Premises, Licensee agrees to furnish insurance in form and in such amounts as required by Metra's Risk Management Department and shall deliver to Metra's Risk Management Department, 547 W. Jackson Blvd., Chicago, IL 60661 certificates of insurance or such other documentation acceptable to Metra's Risk Management Department. At a minimum, Licensee shall obtain and keep in force the insurance coverages, kinds, and amounts, relating to the Premises as listed on **Exhibit "B"** ("**Insurance Requirements"**) during all periods that Licensee or those persons authorized by or acting on behalf of Licensee are on the Premises to perform or cause to be performed any installation, construction, maintenance, or repair with respect to the Pipeline. (Metra may change said insurance requirements from time to time). The total cost of the premium for such insurance shall be at the expense of Licensee or its contractor(s) and/or sub-contractor(s).
- 14. Licensee or its contractor(s) shall not commence any work until it has obtained and provided the required insurance and has received approval of same by Metra. SERVICE AGREEMENT City of Joliet and CIC at Deer Run Property Owners Association – Route 511

This service agreement ("Agreement") is among Pace, the Suburban Bus Division of the Regional Transportation Authority, an Illinois municipal corporation ("Pace"); the City of Joliet, an Illinois municipal corporation ("City"); and CIC at Deer Run Property Owners Association ("CIC"), an Illinois not-for-profit corporation. The City and CIC are sometimes individually referred to as a "Client" and collectively referred to as the "Clients" in this Agreement. Pace and Clients are sometimes individually referred to as a "Party" and collectively referred to as the "Parties" in this Agreement.

Pace was established under the Regional Transportation Authority Act (70 ILCS 3615/1.01 et seq.) to aid and assist public transportation in the six-county northeastern Illinois area.

Pace desires to provide the transportation service known as Route 511 to Clients and the general public ("Service").

Subject to the terms and conditions of this Agreement, each Client desires to grant a revocable, non-exclusive license to Pace and its contracted outside service provider(s) to access and to operate Pace vehicles on real property located on the Service route and owned by that Client and/or both Clients (collectively, the "Property") for the purpose of providing the Service.

In consideration of the foregoing recitals, the mutual promises in this Agreement, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

- 1. Grant of License. Each Client hereby grants a revocable, non-exclusive license to Pace and its contracted outside service provider(s) to access and to operate Pace vehicles on the Property for the purpose of providing the Service. Neither Client will be entitled to any payment for that license.
- 2. <u>Service Description and Service Cost</u>. The Service description is specified in Exhibit A, and the Service cost is specified in Exhibit B.
- 3. <u>Payment of Service Cost</u>. Each Client shall pay the monthly Service cost of \$2,164.01 to Pace by the 10th day of each month for which the Service is to be provided. Each Client shall mail payment to Pace, the Suburban Bus Division of the Regional Transportation Authority, 550 W. Algonquin Road, Arlington Heights, IL 60005 Attention: Accounts Payable; provided, however, payment may be made by electronic funds transfer upon Pace's prior written approval.
- 4. <u>Calculation of Service Cost</u>. The Service cost is calculated using marginal operating costs at each facility per trip and/or route.
- 5. <u>Service Providers</u>. Pace, in its sole discretion, may directly provide the Service and/or may contract with one or more outside service providers to provide the Service ("contracted outside service provider(s)"). Pace will not be responsible for any failure to provide the Service due to circumstances beyond the control of Pace and/or its contracted outside service provider(s). Pace will make every reasonable effort to have the Service restored as soon as practical. Pace may make minor revisions to the Service during the term of this Agreement upon written notification to and concurrence by Clients.

- 6. <u>Term.</u> This Agreement will be in effect beginning on January 1, 2026 and will continue thereafter through December 31, 2026 unless earlier terminated by a Party in accordance with this Agreement.
- 7. <u>Independent Relationship</u>. Pace is an independent contractor and not an employee, agent, joint venturer, or partner of Clients, and nothing in this Agreement will be construed as creating any other relationship between Clients and Pace or between any employee or agent of Pace and Clients. Pace employees will at all times remain employees of Pace, and Pace will be solely responsible for all aspects of their employment, including, without limitation, compensation, benefits, payment or withholding of taxes, Social Security, Medicare, unemployment or other insurance, and workers' compensation.
- 8. <u>Insurance</u>. In the event Pace directly provides the Service, Pace shall name Clients as additional insureds under Pace's excess automobile liability policy of insurance with respect to claims asserted against Clients arising from any covered negligent acts or omissions of Pace in providing the Service.

In the event one or more contracted outside service providers provide the Service, Pace shall require the contracted outside service provider(s) to obtain and maintain insurance coverage and furnish Pace with evidence of such coverage, including a certificate of insurance. Pace shall provide a Client with a copy of the certificate of insurance upon that Client's written request.

- 9. <u>Indemnification</u>. In the event Pace directly provides the Service, to the fullest extent permitted by law and within the limits of Pace's self-insured retention and the excess/umbrella auto liability insurance policies purchased by Pace, Pace shall indemnify, defend, and hold harmless Clients and their respective directors, officers, agents, and employees from and against any and all auto liability claims, suits, losses, damages, and expenses caused by the negligence of Pace and/or its directors, officers, and employees and arising out of the operation of the Service, provided Clients immediately provide Pace with written notice of any such claims, suits, losses, damages, and expenses and fully cooperate with the defense of any such claims and suits. Pace's indemnification obligation under this paragraph does not extend to the negligent, willful and wanton, reckless, or intentional acts or omissions of Clients and/or their respective directors, officers, agents, servants, and employees and is specifically excluded from this indemnification and insurance coverage, including self-insurance.
- 10. <u>Hold Harmless</u>. Each Client shall hold harmless Pace from and against any damages to the Property that result from the normal wear and tear associated with operation of the Service.
- 11. <u>Termination</u>. Any Party may terminate this Agreement upon 60 days' advance written notice to the other Parties.
- 12. <u>Compliance with Laws</u>. The Parties shall comply with all local, state, and federal laws, statutes, ordinances, rules, and regulations applicable to this Agreement, including but not limited to section 2-105(A)(4) of the Illinois Human Rights Act (775 ILCS 5/2-105(A)(4)).
- 13. <u>Headings</u>. The headings in this Agreement are for reference and convenience only and will not affect the meaning or interpretation of this Agreement.

- 15. <u>Binding Effect</u>. This Agreement will be binding upon the Parties and their respective directors, officers, employees, agents, representatives, successors, and approved assigns.
- 16. Entire Agreement and Non-Reliance. This Agreement, including the introductory recitals and attached exhibits, which are hereby incorporated into and made a part of this Agreement, constitutes the entire agreement between the Parties and supersedes any prior written or oral understandings, agreements, or representations between the Parties that may have related in any way to the subject matter of this Agreement, and no other written or oral warranties, inducements, considerations, promises, representations, or interpretations, which are not expressly addressed in this Agreement, will be implied or impressed upon this Agreement.

Each Client represents and warrants that: (a) Client has conducted such independent review, investigation, and analysis (financial and otherwise) and obtained such independent legal advice as desired by Client to evaluate this Agreement and the transaction(s) contemplated by this Agreement; (b) Pace has not made any representations or warranties to Client with respect to this Agreement and the transaction(s) contemplated by this Agreement, except such representations and/or warranties that are specifically and expressly set forth in this Agreement; and (c) Client has relied only upon such representations and/or warranties by Pace that are specifically and expressly set forth in this Agreement and has not relied upon any other representations or warranties (whether oral or written or express or implied), omissions, or silences by Pace. Without limiting any representations and/or warranties made by Pace that are specifically and expressly set forth in this Agreement, each Client acknowledges that Pace will not have or be subject to any liability to Client resulting from the distribution to Client or Client's use of any information, including any information provided or made available to Client or any other document or information in any form provided or made available to Client, in connection with this Agreement and the transaction(s) contemplated by this Agreement.
