TO: Joliet Plan Commission
FROM: Planning Staff
SUBJECT: PUD-1-26: Amendment to the Final Planned Unit Development of Prairie Landing Subdivision (Ordinance #18739) to Allow Additional House Plans

GENERAL INFORMATION:

APPLICANT: D.R. Horton, Inc.
STATUS OF APPLICANT: Owner / Builder
OWNER: D.R. Horton, Inc. and Ross Lane Development LLC
REQUESTED ACTION: Approval of an amendment to the Planned Unit Development to allow additional house plans
PURPOSE: To allow two one-story house models in addition to the previously approved two-story models
EXISTING ZONING: R-2 (Single-Family Residential); Planned Unit Development of Prairie Landing Subdivision
LOCATION: 2200 Essington Road (06-03-36-100-033-0000)
(Council District #1)
SUBDIVISION SIZE: 44 acres
EXISTING LAND USE: Residential subdivision under development
SURROUNDING LAND USE & ZONING:

NORTH: Residential (Picardy subdivision), R-2 (single-family residential)
SOUTH: Residential (Warwick Five subdivision), R-2 (single-family residential)
EAST: Agricultural / undeveloped, unincorporated Will County A-1 (agricultural)
WEST: Commercial (self-storage facility, car dealership), B-3 (general business)

SITE HISTORY: In April 2025, City Council approved the Final Planned Unit Development of Prairie Landing Subdivision, which is located on the east side of Essington Road at Old Castle Road. The subdivision contains 120 single-family lots, a small park lot, and multiple storm detention areas. The house plans approved with the PUD include three models with ten total elevations. All models are two-story houses with living areas between 2,000 and 2,600 square feet. The houses include four to five bedrooms, two-and-a-half bathrooms, and attached two-car garages.

The residential design standards in the Zoning Ordinance require 50 percent of the front elevations of at least 50 percent of the detached single-family dwelling units in a new residential subdivision to be comprised of brick or stone. As part of the PUD request, the petitioner received approval of a variation from this requirement to allow 25 percent of the front elevations of 100 percent of the dwelling units to be brick or stone. The approved two-story house plans include between 25 and 41 percent brick or stone on their front elevations.

Prairie Landing Subdivision is currently under development, and home construction began in November 2025.

SPECIAL INFORMATION: The petitioner, D.R. Horton Inc., is requesting to add two additional house models to the set of approved house plans for the Prairie Landing Planned Unit Development. Both models are one-story and have the same architectural style and roof pitch as the approved plans. Each model has four possible elevations, all of which meet or exceed the requirement of 25 percent brick or stone on the front façade. One model has around 1,700 square feet of living area and contains four bedrooms, while the second model has around 1,500 square feet of living area and contains three bedrooms. Both models include attached two-car garages.

The petitioner is required to amend the Planned Unit Development to add these additional models because they differ in the number of stories from the approved house plans. The petitioner requests this amendment due to market interest for this size and style of home.

This request does not change any other characteristic of the Planned Unit Development, such as number of lots, lot size, or overall site layout.

RECOMMENDED ACTION: Staff recommends that the Plan Commission recommend approval of the amendment to the Final Planned Unit Development of Prairie Landing Subdivision (Ordinance #18739) to allow one-story house models to be included with the set of approved house plans for the subdivision. The proposed plans are the same style and materials as the approved two-story plans. The subdivision is new and home

construction has just started, so if approved, the additional plans will be available to almost all prospective home buyers.
