## INTEROFFICE MEMORANDUM

July 23, 2025

**TO: Public Service Committee**

**FROM: Allison Swisher, P.E., Director of Public Utilities**

**SUBJECT: Report on Utilities' Maintenance Activities**

---

The following maintenance activities have been conducted since last reported at the June 30, 2025, Public Service Meeting:

Hydrant Repairs: Thirteen hydrants have been repaired. There are currently 84 out of service hydrants (1.1% of 8351) and 98 hydrants that are operational but need repairs (1.1% of 8351).

Valve Repairs: Three valves have been reset or repaired.

Water Main Breaks: Ten water main breaks have been repaired. For 2025 there have been a total of 96 water main breaks. For the same period of time, we had 90 water main breaks in 2024, 81 in 2023, 136 in 2022, 140 in 2021, 84 in 2020, 152 in 2019, and 140 in 2018.

There was a one new contracted service. Camco Construction repaired a Force Main break near the West Park Lift Station due to limited access and the depth of the repair. The Sewer Department assisted with the job.
