 - c. Complete observation of immediate neighbors from air for any possible roof damage.
 - d. Observe the installation of screens, light bulbs, etc.
 - e. Observe Site for restoration to pre-project conditions.
 - f. Formulate a punch list of items to complete.
 - g. Create a second punch list if needed before finalization.
 - h. Finalize the project to ensure all items in the contract specifications have been completed, and the quality of workmanship meets contract requirements.

C. Construction Phase Client's Responsibilities:

1. Inform DIXON in writing of any specific requirements of safety or security programs that are applicable to DIXON, as a visitor to the Site.
2. Attend and participate in the Preconstruction conferences, construction progress and other job-related meetings, and Site visits to determine Substantial Completion and readiness of the completed Work for final payment.

A1.05 Post Construction Phase:

A. Basic Services:

1. One Year Warranty Observation - ROV and Exterior:
 - a. Review all steel and/or concrete repairs completed during Construction Phase.
 - b. Review all wet surfaces for corrosion and/or damage, qualify and quantify damage relative to warranty requirements.
 - c. Review all dry interior surfaces for corrosion and/or damage, qualify and quantify damage relative to warranty requirements.
 - d. Review exterior surfaces for coating failures. If any coating "fails" to meet warranty requirements, quantify all findings for presentation to Contractor.
 - e. Review all exterior appurtenances for damage due to corrosion or construction.
 - f. Review all health aspects of the tank, including screening of the vent, overflow pipe, and other possible contamination sources.
 - g. Prepare a report documenting all items found that meet or fail to meet warranty requirements and recommendations for repair. The report will be letter format with photos and photo descriptions.

B. Post Construction Phase – RPR Services

1. Detailed above if repairs are needed.

C. Post Construction Phase – Client's Responsibilities:

1. Warranty Observation - ROV Observation:
 - a. Fill the tank to overflow or higher capacity and isolate it from the system during the ROV observation, or as a minimum, maintain positive flow (No water withdrawal from tank).
 - b. Perform chlorine residual and bacteriological testing after completion of observation.

Note: in the DIXON supplied General conditions, all expenses related to or developing out of a failed warranty inspection such as additional DRR services and Client's direct expenses are "set-off" costs and may be retained and withdrawn from any money still retained from Contractor's final pay request. Problem at this point, is the Contractor usually has been paid in full and there are no funds available. Contractor Contract Documents, if prepared by DIXON requires a Maintenance Bond for this situation. Contractor generally pays cash as opposed to charging the bond. If Contract Documents were prepared by others, it may be possible to recover set off cost from the Performance Bond if a warranty provision is written as a performance requirement of the contract.

ANTENNAS ON TOWERS - DIXON SERVICES and OWNER'S RESPONSIBILITIES

Article 1 and 2 of the Agreement is supplemented to include the following agreement of the parties:

B1.00 General:

- A. Almost all towers have antennas, some only small SCADA, local 911, or internet antennas. If work is to be completed around these antennas they need to be protected or temporarily removed. Decisions and directives need to be issued early in the Design Phase. If the antennas must be removed, this is the time to make modifications. This Work can be completed by DIXON or Owner. There is a long lead time for most removals, so it is important to get written commitment from the Carriers as to a schedule. DIXON will provide Antenna Contract Administration and field observation as delegated below. If Owner will complete the services – responsibility is to be defined as total or partial for all items below as between Engineer responsible and Owner responsible.

B1.01 Post Construction Phase - Antennas:

- A. Review design modifications/improvements (by others) for reinstallation of the T-Mobile equipment back onto the tank after the rehabilitation/painting project is completed.
- B. Assist the Owner on an as-needed basis in coordinating reinstallation of the T-Mobile equipment back onto the tank after the rehabilitation/painting project is completed.
- C. Conduct three (3) reinstallation inspections of the tank once the T-Mobile has been reinstalled back onto the tank after the rehabilitation/painting project is completed.

B2.01 ADDITIONAL SERVICES

- A. Any service not listed or referenced above as a DIXON supplied service and/or delegated as a Responsibility of Client in Part B1 will be considered an Additional Service.
 - 1. All additional requested services and associated fees shall be documented by an Exhibit K, Contract Amendment signed by both parties.
 - 2. If timing or other reason require the Client to reallocate responsibility to DIXON, then those reallocated responsibilities are treated as an Additional Service.

BASIS OF FEES, INVOICING, AND PAYMENT

Part 1 BASIS OF FEES

C1.01 Basis:

- A. Standard Hourly Rates - An amount equal to the cumulative hours charged to the Project by each classification of DIXON's personnel, times Standard Hourly Rates and Overtime rates for each applicable billing classification. (Exhibit C-2)
- B. Lump Sum (LS) Method: One agreed fee for completing an agreed defined scope of services.
- C. Unit Price (UP) Method: Can be considered individual Lump Sum amounts.

C1.02 Methods of Rate Calculation including Limitations:

- A. Standard Hourly Rate (SHR) Method:
 - 1. The SHR method may be used for all services. It is more commonly used on portions of various Phase Services where scheduling and speed are controlled by the Contractor and may result in unforeseen project expenses; in Phase Construction, Basic, and RPR/DRR services, and for Additional Services during all phases.
 - a. Overtime rates apply to over 40 hours worked between Monday and Friday.
 - b. Overtime rates apply for all hours worked on weekends and holidays.
 - c. Weekend and Holiday hours do not count toward the accounting for 40 hours.
 - 2. Standard Hourly rates of DIXON's employees are per classification in the Standard Hourly Rate and Reimbursable Expense Schedule included in this Exhibit C, as Exhibit C Attachment 2. (Ex C-2) A classification that has a range of fees, reflects varying levels of experience within that classification. DIXON reserves the right to select the level of RPR and classification. This decision is at DIXON's discretion only and will be dependent primarily on experience with Owner selected Contractor as well as other factors.
 - a. Reimbursable expenses are those expenses directly related to and resulting from this Project. These expenses are primarily living expenses and mileage.
 - 3. The SHR charged by DIXON constitutes full and complete compensation for DIXON services including labor costs, overhead, and profit but not Reimbursable Expenses.
 - a. The Standard Hourly Rates per employee classification listed in Attachment C-2 do not include reimbursable expenses. The estimated Reimbursable Expenses are NOT calculated and averaged over the classification rate.
 - 1) The estimator calculates the number of days a project is expected to require and calculates manpower required to match number of hours and services required.
 - 2) The estimator then calculates Reimbursable Expenses based on the same criteria.
 - 3) Both the total manpower estimate, and Reimbursable Expenses total estimate are added. And the total estimate is included in the fee schedule shown in Attachment C-1.
- B. The Lump Sum Method:
 - 1. The Lump Sum fee charged by DIXON constitute full and complete compensation for DIXON's services including labor costs, overhead, profit, and reimbursable expenses.
 - 2. The Lump Sum Method is more commonly used by DIXON for portions of the Phases where DIXON has control over a greater percentage of unknowns, such as the Technical

Specifications, Bidding and Contract Documents, and Post Construction Phases excluding fees for Additional Services.

3. DIXON may use a Lump Sum for the entire project.
- C. The Unit Price Method:
1. Reimbursable expenses are calculated and included in Unit Prices.
 2. The Unit Price Method is used when DIXON completes Hold Point Observations, or known, controlled portions of the Scope of Services.
- D. Exhibit B Antennas: LS, UP, or SHR or Combination based on type of services.
- E. Exhibit K Addendum: Addenda items (if any) may be negotiated according to any agreed method.
- F. Subconsultants or Subcontractor Service Fees are not included in the SHR, LS, or UP methods. DIXON will invoice for Subconsultant's or Subcontractor's actual invoiced amount times a factor of 1.20. The 1.20 factor includes DIXON's overhead and profit associated with DIXON's responsibility for the administration of such services.

C1.03 Definitions including Limitations:

- A. Basic Services to be performed are identified in Exhibit A, or by reference, in the General Conditions (GC-700) of the Owner/Contractor Construction Documents. Basic Services are generally calculated using the Lump Sum method. These services are contracted services and thus are prior authorized.
- B. RPR (DRR) Services are contractually agreed services per Exhibit A Task Order or by reference, in the General Conditions (GC-700) of the Owner/Contractor Construction Document RPR services. These services are primarily observation during the Construction phase. RPR Services are generally calculated using the SHR method for Full Time or Daily services and by Unit Price for Hold Point Observations. Often an Agreement for RPR services involves a combination of the SHR and the Unit Price method. These are contracted services and thus are prior authorized.
- C. Contingent Services -some services are Basic to every Agreement. Other Basic Services and the Project Manager's time associated with them are unknown. Some services are not used on all projects, such as review of multiple Pay Requests, Change Orders, Field Orders, and Work Change Directives. These are services which may or may not be needed; and are Contingent. Contingent Services are generally calculated using the SHR method but may be Lump Sum or Unit Price method. These are contracted services and thus are prior authorized. Contingent services and fees may not be used in all contracts.
- D. Additional Services are services outside of the Scope of Services as defined in Exhibit A, and/or TO#__ EX A (if this is a Task Order Agreement). These are NOT contracted services and prior authorization in the form of Exhibit K- Addendum is required. The calculation of fees is Work dependent and may be calculated by the SHR method, Lump Sum or Unit Price.
- E. Antenna Services are defined in Ex B. The calculation of the services is usually a combination of Unit Price and SHR methods. These are contracted services and thus are prior authorized.

C1.04 Fees:

- A. Contracted Fees are detailed in EX C Attachment 1.
- B. Contingency Allowance Fees if identified or requested, are intended to allow the flexibility to continue the Project and Services, without the need for an Addendum for additional fees.
Contingent Fees may be transferred within the Project Phase or transferred to other project Phases

as needed. Transfer does not require prior authorization. It is intended that any fees in this Contingency be used when other accounts are exhausted or minor Additional Services are required. Contingency fees unused will not be invoiced.

- C. Set-Off Fees contractual Set-off: (Applies to Construction and Post Construction Phases only) as defined in the Technical Specifications and General Conditions of the Owner/Contractor Agreement (EJCDC G-700), is a contractually agreed remedy for small violations or nonadherence of the Agreement terms between Owner and Contractor, which result in extra or unnecessary expenses to the Owner, for Owner or DIXON services. The cost for additional DIXON services and unnecessary expenses are not foreseen and cannot be calculated. Those fees and expenses will be invoiced using the same SHR or Unit Price method, that had the service been necessary would have been invoiced to Client. These services generally do not require prior approval of Client, because they are required in the administration of the Agreement. Set-off fees are invoiced to the Client, who pays DIXON. The Owner can then Set-off these charges from amounts owed to the Contractor.
1. A few examples of Set-off Fees are when the Client has incurred extra charges or engineering costs related to:
 - a. Excessive submittal review,
 - b. Excessive evaluations of proposed substitutes,
 - c. Tests and inspections, or return Hold Point Observations to complete Field Work that was determined to be a failed inspection and,
 - d. Work is defective, require correction or replacement including additional observation costs.

C1.05 Estimated Fee:

- A. The SHR Method of Rate Calculation is an estimate. The SHR Method is prepared based on extensive experience and is intended to be conservative.
1. Calculating SHR includes, DIXON's estimate of the amounts that will become payable for specified services and are only estimates for planning purposes, are not binding on the parties, and are not the minimum or maximum amounts payable to DIXON under the Agreement.
 2. When estimated compensation amounts have been stated herein and it subsequently becomes apparent to DIXON that the total compensation amount thus estimated will be exceeded, DIXON shall give Client notice thereof, allowing Client to consider its options, including suspension or termination of DIXON's services for Client's Convenience. Upon notice, Client and DIXON shall promptly review the matter of services remaining to be performed and compensation for such services. Client shall either exercise its right to suspend or terminate DIXON's services for Client's convenience, agree to such compensation exceeding said estimated amount, or agree to a reduction in the remaining services to be rendered by DIXON, so that total compensation for such services will not exceed said estimated amount when such services are completed. If Client decides not to suspend DIXON's services during the negotiations and DIXON exceeds the estimated amount before Client and DIXON have agreed to an increase in the compensation due DIXON or a reduction in the remaining services, then DIXON shall be paid for all services rendered hereunder.
 3. The requirements of minimum work hours and weeks shall remain in effect through negotiations and the minimum hourly requirements of these paragraphs are not negotiable. An

RPR is a professional, and if they remain on Site, they are guaranteed the minimum number of hours. Negotiations may change Full Time or Daily RPR to Hold Point Observation Services or reduce the number of Daily Inspections. Then minimum hour requirements apply only to demobilization if RPR was Full Time.

C1.06 DIXON's Reimbursable Expenses Schedule and Standard Hourly and Overtime Rates:

- A. Attached to this EXHIBIT C is Attachment C-2, Standard Hourly Rate and Reimbursable Expense Schedule
- B. Annual Cost Adjustment – January 1 each year.
 - 1. The Standard Hourly Rates and Reimbursable Expenses Schedule will be adjusted as of January 1 past the expiration date printed on Attachment C-2 to reflect equitable changes in the compensation payable to DIXON. Proposals sent after August 1st will have Attachment C-2 with effective rates through December 31 of the subsequent year.
 - 2. Unit Price for Hold Point observations and Lump Sum items shall be increased at the same time as hourly rate and by the same percentage increase as Standard Hourly Rates.
 - 3. Notification of these cost adjustments, or the issuance of an Addendum or Change Order are not required, but DIXON shall endeavor to so advise. Failure to supply notification does not waive the right for implementing rate increases.

PART 2 INVOICING AND PAYMENT for Services in EXHIBIT A per EXHIBIT C-1:

- A. Preparation and Submittal of Invoices: DIXON will prepare invoices in accordance with its standard invoicing practices and the terms of this EXHIBIT C and Attachments C-1 and C-2. DIXON will submit its invoices to Client on a monthly basis with the exception of smaller amounts due.
- B. Invoices are due and payable within 30 days of receipt.
- C. The amount invoiced for DIXON's services rendered on a Lump Sum basis will be based upon DIXON's estimate of the proportion of the total services actually completed during the billing period, plus reimbursable expenses (if any) incurred during the billing period.
- D. The amount invoiced for services rendered on a Standard Hourly Rate basis will be an amount equal to the cumulative hours devoted to the Project during the billing period by each billing class of DIXON's employee's times the hourly rate for each applicable billing class incurred during the billing period.
- E. Distribution of Compensation: DIXON may alter the distribution of compensation between individual phases of the work noted in Attachment C-1 to be consistent with services actually rendered but shall not exceed the total estimated compensation amount unless approved in writing by Client.
- F. Application to Interest and Principal: Payment will be credited first to any interest owed to DIXON and then to principal.
- G. Failure to Pay: If Client fails to make any payment due DIXON for services and expenses within 30 days after receipt of DIXON's invoice, then:
 - 1. DIXON will increase amount due at the rate of 1.0% per month (or the maximum rate of interest permitted by law, if less) from said 30th day.

2. DIXON may, after giving seven days written notice to Client, suspend services under this Agreement until Client has paid in full all amounts due for services, expenses, and all other related charges. Client waives any and all claims against DIXON for any such suspension.
- H. Disputed Invoices: If Client disputes an invoice, either as to amount or entitlement, then Client shall promptly advise DIXON in writing of the specific basis for doing so, may withhold only that portion so disputed, and must pay the undisputed portion.
- I. Sales or Use Taxes: If after the Effective Date any governmental entity takes an action that imposes additional sales or use taxes on DIXON's services or compensation, then DIXON may invoice such additional sales or use taxes for reimbursement by Client.

PART 3 SELECTION OF RPR SERVICES

C3.00 Selection of Full Time vs. Daily RPR

- A. Daily RPR Services: Working from the Base Office and traveling Daily to the Project site.
- B. Full Time RPR Services: The RPR stays in lodging near the Project Site because the distance from Base Office, makes daily travel exceed daily expenses.

C3.01 Financial Considerations when Selecting RPR Services:

- A. Minimum Hourly and Weekly requirements.
 1. Daily RPR Services -8 hours per day plus travel time and mileage.
 2. Full Time RPR Services:
 - a. Minimum workday - 8 hours.
 - b. Minimum 40-hour work week except first and last week. If the Contractor is working more than 40 hours then the RPR is also working more than 40 hours, if work being completed rises to the level of observing.
 - c. Rain days or no work days as determined by the Contractor or Client – minimum billable work day is four hours, no site time required.
 - d. Delayed start day as determined by the Contractor, (ex. Rain delay start)- minimum billable time is actual delay time up to four hours plus onsite time. Total cannot be less than four hours.
 - e. Actual Mobilization and Demobilization Time and Reimbursable Expenses.
Reimbursable expenses include expenses incurred on dates of no work, mobilization, and demobilization days.

C3.02 Hold Point Observations:

- A. The RPR travels to site to complete the observation and travels back to Base Office. On site time at a minimum is time to complete observations and to complete report.

ELECTRONIC DOCUMENTS PROTOCOL (EDP)

With so many personnel and parties involved in Construction, it is essential, especially through the Construction Phase, that all means of EDP, and communication be kept as simple and uniform as possible. Following is a consolidated Protocol prepared by EJCDC which DIXON will complete if contracted to follow. Otherwise, DIXON will open a line of communication as directed by email and when that contact has responded then by simple email, using the agreed addresses will be followed. This excludes Notice and Contract requirements of a contact Person (page One).

ARTICLE 1—ELECTRONIC DOCUMENTS PROTOCOL (EDP)

The Main Agreement is supplemented by the following consolidated Exhibit E and Exhibit E-Attachment 1: Software Requirements for Electronic Document Exchange:

E1.01 Electronic Documents Protocol

- A. Electronic Transmittals: The parties shall conform to the following provisions together referred to as the Electronic Documents Protocol ("EDP" or "Protocol") for exchange of electronic transmittals.
1. Basic Requirements
 - a. To the fullest extent practical, the parties agree to and will transmit and accept Electronic Documents by Electronic Means using the procedures described in this Protocol. Use of the Electronic Documents and any information contained therein is subject to the requirements of this Protocol and other provisions of the Agreement.
 - b. The contents of the information in any Electronic Document will be the responsibility of the transmitting party.
 - c. Electronic Documents as exchanged by this Protocol may be used in the same manner as the printed versions of the same documents that are exchanged using non-electronic format and methods, subject to the same governing requirements, limitations, and restrictions, set forth in the Agreement.
 - d. Except as otherwise explicitly stated herein, the terms of this Protocol will be incorporated into any other agreement or subcontract between the Owner and DIXON and any third party for the Project. Nothing herein will modify the requirements of the Agreement and applicable Construction Contract Documents (EJCDC G-700) regarding communications.
 - e. When transmitting Electronic Documents, the transmitting Party makes no representations as to long term compatibility, usability, or readability of the items resulting from the receiving Party's use of software application packages, operating systems, or computer hardware differing from those established in this Protocol.
 2. System Infrastructure for Electronic Document Exchange
 - a. Each party will provide hardware, operating system(s) software, internet, e-mail, and large file transfer functions ("System Infrastructure") at its own cost and sufficient for complying with the EDP requirements. Except for minimum standards set forth in this EDP and any explicit system requirements specified by attachment to this EDP, it will be the obligation of each party to determine, for itself, its own System Infrastructure.
 - b. Each party is responsible for its own system operations, security, back-up, archiving, audits, printing resources, and other Information Technology ("IT") for maintaining operations of its System Infrastructure during the Project.
 - c. Each party will operate and maintain industry-standard, industry-accepted, ISO-standard, commercial-grade security software and systems that are intended to protect the other party from: software viruses and other malicious software like worms, trojans, adware; data breaches; loss of confidentiality; and other threats in the transmission to or storage of

information from the other parties, including transmission of Electronic Documents by physical media such as CD/DVD/flash drive/hard drive. To the extent that a party maintains and operates such security software and systems, it will not be liable to the other party for any breach of system security.

- d. In the case of disputes, conflicts, or modifications to the EDP required to address issues affecting System Infrastructure, the parties will cooperatively resolve the issues; but, failing resolution, the Owner is authorized to make and require reasonable and necessary changes to the EDP to effectuate its original intent.
 - e. Each party is responsible for its own back-up and archive of documents sent and received during the term of any Project contract/agreement under this EDP. Further, each party remains solely responsible for its own post-Project back-up and archive of project documents, as each party deems necessary for its own purposes, after the term of contract.
 - f. If a receiving party receives an obviously corrupted, damaged, or unreadable Electronic Document, the receiving party will advise the sending party of the incomplete transmission.
 - g. The parties will bring any non-conforming Electronic Documents into compliance with the EDP.
 - h. If the Owner operates a Project information management system (also referred to in this EDP as "Project Website") for use of Owner, DIXON, Contractors, during the Project for exchange and storage of Project-related communications and information, then that provision and requirements shall be identified in an Exhibit J - Amendment.
- B. Software Requirements for Electronic Document Exchange; Limitations
1. Each party will acquire the software necessary to create and transmit and read Electronic Documents received from the other party (and if relevant from third parties).
 2. Software and data formats for exchange of Electronic Documents will conform to the requirements set forth in the following Attachment 1 to this EDP, including software version, if listed.

GENERAL PROVISIONS and RELATED CONDITIONS

Note: Some Articles in this Exhibit GP may not all apply to the Scope of Work in Exhibit A. They become effective and are included because additional Scopes of Work may be added at any time with a Task Order or Exhibit K.

GP1.01 Standards of Performance:

- A. Standard of Care: The Standard of Care for all services performed or furnished by DIXON under this Agreement will be the care and skill ordinarily used by members of this subject profession practicing under similar circumstances at the same time and in the same locality.
- B. Technical Accuracy: Client shall not be responsible for discovering deficiencies in the technical accuracy of DIXON's services. If deficiencies are discovered by DIXON, Engineer, Owner, or Bidder; DIXON shall correct deficiencies in technical accuracy without additional compensation unless such corrective action is directly attributable to deficiencies in Client furnished information.
- C. Reliance on Others: Subject to the Standard of Care set forth above- DIXON, and its Consultants may use or rely upon design elements and information ordinarily or customarily furnished by others, including, but not limited to, specialty contractors, manufacturers, suppliers and their publishers, or technical standards.
- D. Conflict of Interest: Nothing in this Agreement will be construed to create or impose any duty on the part of DIXON that would conflict with DIXON's paramount obligations to the public health, safety, and welfare under the professional practice requirements governing DIXON, its Subconsultants or, and all licensed professionals employed by DIXON or its Subconsultants. If during the term of this Agreement a potential or actual Conflict of Interest arises or is identified, DIXON and Client together will make reasonable, good faith efforts to avoid or eliminate the Conflict of Interest.
- E. DIXON may retain such consultants as it deems necessary to assist in the performance or furnishing of services, subject to reasonable, timely, and substantive objections by Client.

GP1.02 DIXON does NOT provide the following services which would violate the Standard of Care:

- A. DIXON's Services and Additional Services do not include:

 - 4. providing legal advice or representation

GP1.03 Opinions of Probable Construction Cost:

- A. DIXON's opinions (if any) of probable Construction Cost are to be given on the basis of DIXON's experience, qualifications, and general familiarity with the coating industry. However, because DIXON has no control over the cost of labor, materials, equipment, or services furnished

by others, or over contractors' methods of determining prices, or over competitive Bidding or market conditions, DIXON cannot and does not guarantee that proposals, Bids, or actual Construction Cost will not vary from opinions of probable Construction Cost prepared by DIXON in Evaluation Reports or made verbally by DIXON.
