

## **STAFF REPORT**

**DATE:** August 10, 2021  
**TO:** Zoning Board of Appeals  
**FROM:** Planning Staff  
**RE:** Petition Number: 2021-44 & 2021-45  
Applicant: Richard Hester / Fourth Generation Properties LLC  
Drauden  
Owner: Timpanogas LLC  
Location: Drauden Road, Northwest of Theodore  
Request: 2021-44: A Variation of Use to allow a self-storage facility that includes indoor-climate-controlled and outdoor mini-storage units in a B-1 (Neighborhood Business) District  
2021-45: A Special Use Permit to allow a self-storage facility that includes indoor-climate-controlled and outdoor mini-storage units

---

### **Purpose**

The applicant is requesting a Variation of Use and a Special Use permit to allow a self-storage facility that includes indoor-climate-controlled and outdoor mini-storage units in a B-1 (Neighborhood Business) District. The City Council makes the final decision on this Special Use Permit request.

### **Site Specific Information**

The 3.86-acre subject property is Lot 2 of the of the 10.41-acre two-lot commercial subdivision at Drauden and Theodore that the City Council approved on December 1, 2020. A Gas N Wash fueling center was constructed on Lot 1. The property is zoned B-1 (Neighborhood Business) District. Access to the subject property will be from Drauden Road. The storm water detention system for Lot 1 will be expanded and shared to accommodate the proposed facility.

### **Surrounding Zoning, Land Use and Character**

- North: Com Ed Easement, R-2
- South: Commercial; B-1
- East: Residential, R-2.
- West: Com Ed Easement, R-2

### **Applicable Regulations**

- Section 47-11.4: Prohibited Uses – B-1 Zoning District
- Section 47-17.28: Variation of Use
- Subsection 47-19.8: Finding of Fact Supporting a Variation (See below)
- Section 47-13.2A (I): Special Uses – B-3 Zoning District
- Section 47-5.2(C) Criteria for Issuance of Special Use Permit

**Section 47-17.28: Variation of Use:** *A "variation of use" shall be defined to mean relief from strict compliance with the use limitations of this Ordinance regarding the classification, regulation, and restriction of the location where trades, industries, businesses, and residences may exist.*

### **Discussion**

The petitioner, who is the contract purchaser of the property, proposes to build an indoor, climate-controlled storage facility with accessory outdoor mini-storage units on Lot 2 of the Gas and Wash Theodore and Drauden Subdivision. The petitioner intends to be the operator of the facility and operates other storage facilities in the greater Joliet area. The Joliet Zoning Ordinance considers storage facilities to be a Special Use Permit to be a B-3 Special Use Permit approval use. Therefore, the request requires both a Special Use Permit and a Variation of Use approval.

This proposal currently includes a one-story, 10,950 square foot climate controlled indoor facility as well as six outside-access one-story buildings with mini-storage units. In total, there would be approximately 390 storage units of varying sizes. Outdoor storage of any kind is not permitted on site. The proposed site plan, proposed landscape plan, and conceptual building elevations are included with the staff report packet.

The proposed hours of operation, during which renters can access their storage units, will be from 5:00 am to 10:00 pm. Renters of the storage units would access their units through a secured gate. The facility will be staffed approximately 30 hours a week.

### **Conditions**

If the Zoning Board desires to recommend approval of the Variation of Use and Special Use Permit requests to allow a self-storage facility that includes indoor, climate-controlled and outdoor mini-storage units, located at Drauden Road and Theodore Street, the following conditions would be included:

1. That no outside storage be allowed on site;
2. That the Special Use granted shall herein terminate and lapse unless a building

permit or certificate of occupancy is obtained not later than 180 days of the effective date of this ordinance and the erection or alteration of a building is started or the use is commenced within such period. The Board may grant an extension of this period, valid for no more than one hundred and eighty (180) additional days, upon written application and good cause shown without notice or hearing. Whether or not there is an intention to abandon the Special Use, if any special use is discontinued for a continuous period of one year, or if an intent to abandon the Special Use is evident in a shorter period of time, the Special Use for such use shall become void, and such use shall not thereafter be reestablished unless a new Special Use Permit is obtained;

3. Failure to comply with any of the above conditions could result in a rehearing and a possible revocation of the special use permit; and
4. Should the property be declared a public nuisance, it shall be subject to a rehearing and a possible revocation of the Special Use Permit.

LOT SIZE: WIDTH: +/-668 FT DEPTH: +/-503 FT AREA : 3.86 ACRES

PRESENT USE(S) OF PROPERTY: VACANT

PRESENT ZONING OF PROPERTY: B-1 GENERAL BUSINESS

SPECIAL USE REQUESTED: SELF-STORAGE FACILITY

The Zoning Board of Appeals is authorized to grant a special use permit provided the applicant establishes by clear and convincing evidence:

- (1) That the establishment, maintenance, or operation of the special use will not be detrimental to or endanger the public health, safety, morals, comfort, or general welfare; and
- (2) That the special use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood; and
- (3) That the establishment of the special use will not impede the normal and orderly development and improvement of surrounding property for uses permitted in the district; and
- (4) That adequate utilities, access roads, drainage, and/or other necessary facilities have been or will be provided; and
- (5) That adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets; and
- (6) That the special use shall in all other respects conform to the applicable land use regulations of the district in which it is located and shall not be in violation of any other applicable law, ordinance or regulation; and

- (7) At least one (1) year has elapsed since any denial of any prior application for a special use permit that would have authorized substantially the same as all or part of the sites, unless conditions in the area have substantially changed.

Please describe how this request meets the criteria by responding to the following questions in your own words.

1. How will the establishment, maintenance, or operation of the special use affect the public health, safety, morals, comfort, or general welfare?

Storage space is essential to residents at times of life changing events. (relocation, divorce, death)

Having availability of storage aids during these stressful times. Long term additional storage for seasonal decorations, furniture, baby cribs, etc make the home more comfortable.

2. How will the special use impact properties in the immediate area? The storage facility will have minimal impact on traffic, noise, odor, etc. With residents in the area having availability to additional storage space, they may be able to park their cars in the garage rather than their driveway or street.

This would improve neighborhood appearance and improve safety for children playing.

3. Will the use impede the normal/orderly development/improvement of surrounding property?

NO. THE SURROUNDING PROPERTY IS CURRENTLY DEVELOPED. OR IS COMED PROPERTY.

4. Are adequate utilities, access roads, drainage, and/or other necessary facilities provided?

YES. PUBLIC SANITARY SEWER AND WATER MAIN IS READILY AVAILABLE ON THE FRONTAGE OF THE SITE AND WITHIN EASEMENTS ADJACENT TO SITE

5. Have adequate measures been taken to provide ingress/egress design to minimize traffic congestion in public streets?

YES. THE SHARED ACCESS WITH LOT 1 FOR THE GAS STATION IS UTILIZED.

6. Does the use conform to the applicable land use regulations of the district in which it is located and does it violate any other applicable law, ordinance or regulation?

Currently applying for Variation of Use for B3 use in B1.

7. Has at least one (1) year elapsed since any denial of any prior application for a special use permit that would have authorized substantially the same as all or part of the sites (unless conditions in the area have changed substantially)?

PRESENT USE(S) OF PROPERTY: VACANT

VARIATION OF USE REQUESTED: FOR ALLOWING OF B-3 USES FOR SELF-STORAGE

### **RESPONSE TO VARIATION OF USE CRITERIA**

The Zoning Board of Appeals is authorized to grant or recommend relief only when it has received adequate evidence to establish a practical difficulty or hardship. The evidence must support each of the following three conditions:

- (a) The property in question cannot yield a reasonable return by use permitted and subject to the conditions allowed by the regulations in the particular district or zone.
- (b) The plight of the owner is due to unique circumstances.
- (c) The variation, if granted, will not alter the essential character of the locality.

**Please describe how this request meets the criteria by responding to the following questions in your own words.**

*1. How do the applicable zoning regulations prevent the property in question from yielding a reasonable return?*

Self storage is designated for B3 zoning. As the self storage industry has grown, it has changed  
from being viewed as an industrial warehouse business to a neighborhood retail business. The majority of storage  
customers live within a 1-2 mile radius of the facility they use, making it reasonable for a storage facility to be located  
on a property zoned B1. A location further from customer's homes would be less successful.

2. What unique circumstances exist which mandate a variance?

The property is unique in shape and location. It is a triangle shape which could be difficult for other uses. Also, the property borders a gas station and ComEd utility easement. So there are no immediate residential neighbors.

3. What impact would the granting of this variance have upon the essential character of the general area? Please include both positive and negative impacts.

The essential character of the area would be minimally impacted. The exterior facing materials will fit in with the area, and the landscape along Drauden Rd would be a continuation of the existing landscape of the gas station. Self storage facilities do not add any significant traffic, noise, odor, or safety issues to the surrounding neighborhood.
